

FOR SALE

CBRE

7104 OVERLAND RD

Orlando, Florida 32810

NW Orange County Submarket
Lockhart Industrial District

INDUSTRIAL OUTDOOR STORAGE

Industrial Outdoor Storage (IOS) assets remain among the most sought-after industrial property types in Central Florida, driven by limited supply and increasing demand from transportation, logistics, and service-related industries.

Featuring a fully fenced and secured yard, rare I-4 Heavy Industrial zoning, and excellent access to major transportation corridors, 7104 Overland Road is ideally suited for contractors, fleet operators, equipment rental companies, truck parking, and outdoor storage users seeking a scarce infill IOS opportunity within the Orlando MSA.

INVESTMENT HIGHLIGHTS

- + Rare I-4 Heavy Industrial zoning provides broad-use flexibility within a highly supply-constrained Northwest Orange County submarket, where comparable industrial outdoor storage opportunities are exceptionally limited.

- + ±144-acre fully fenced and secured site offering substantial Industrial Outdoor Storage (IOS) capacity suitable for fleet operations, contractor storage, heavy equipment staging, truck parking, and outdoor industrial use.

- + Functional 4,002 SF warehouse featuring three oversized drive-in doors (10'W x 14'H) designed to accommodate equipment, service vehicles, and industrial operations. Office space: 1,400 SF house with two units.

- + Strategic infill location with direct access to N. Orange Blossom Trail, SR 414, Beggs Road, and the greater Orlando transportation network, benefiting from exposure along corridors serving 27,000+ vehicles daily

Why Orlando?

Orlando ranks among the nation's fastest-growing major markets, supported by a diverse \$233+ billion economy, sustained population growth, and expanding investment across the technology, defense, logistics, and manufacturing sectors. Strong economic fundamentals and continued infrastructure investment have fueled robust demand

for industrial real estate throughout the region. Against a backdrop of limited industrial land availability and increasing barriers to entry, well-located assets with flexible zoning and outdoor storage capabilities remain highly sought after by both owner-users and investors.
