COMPREHENSIVE PLAN

CITY OF REXBURG

COM

COMMERCIAL

Commercial areas welcome a variety of retail and employment services appropriate for highway frontage areas. Uses may include grocery stores, shopping centers, dining, hotels, and other hospitality and entertainment options, as well as employment parks. Building types may include freestanding, mid-rise, retail and office buildings in a unified campus-like setting with high-quality design integrated with sidewalks, landscape features, and public spaces.

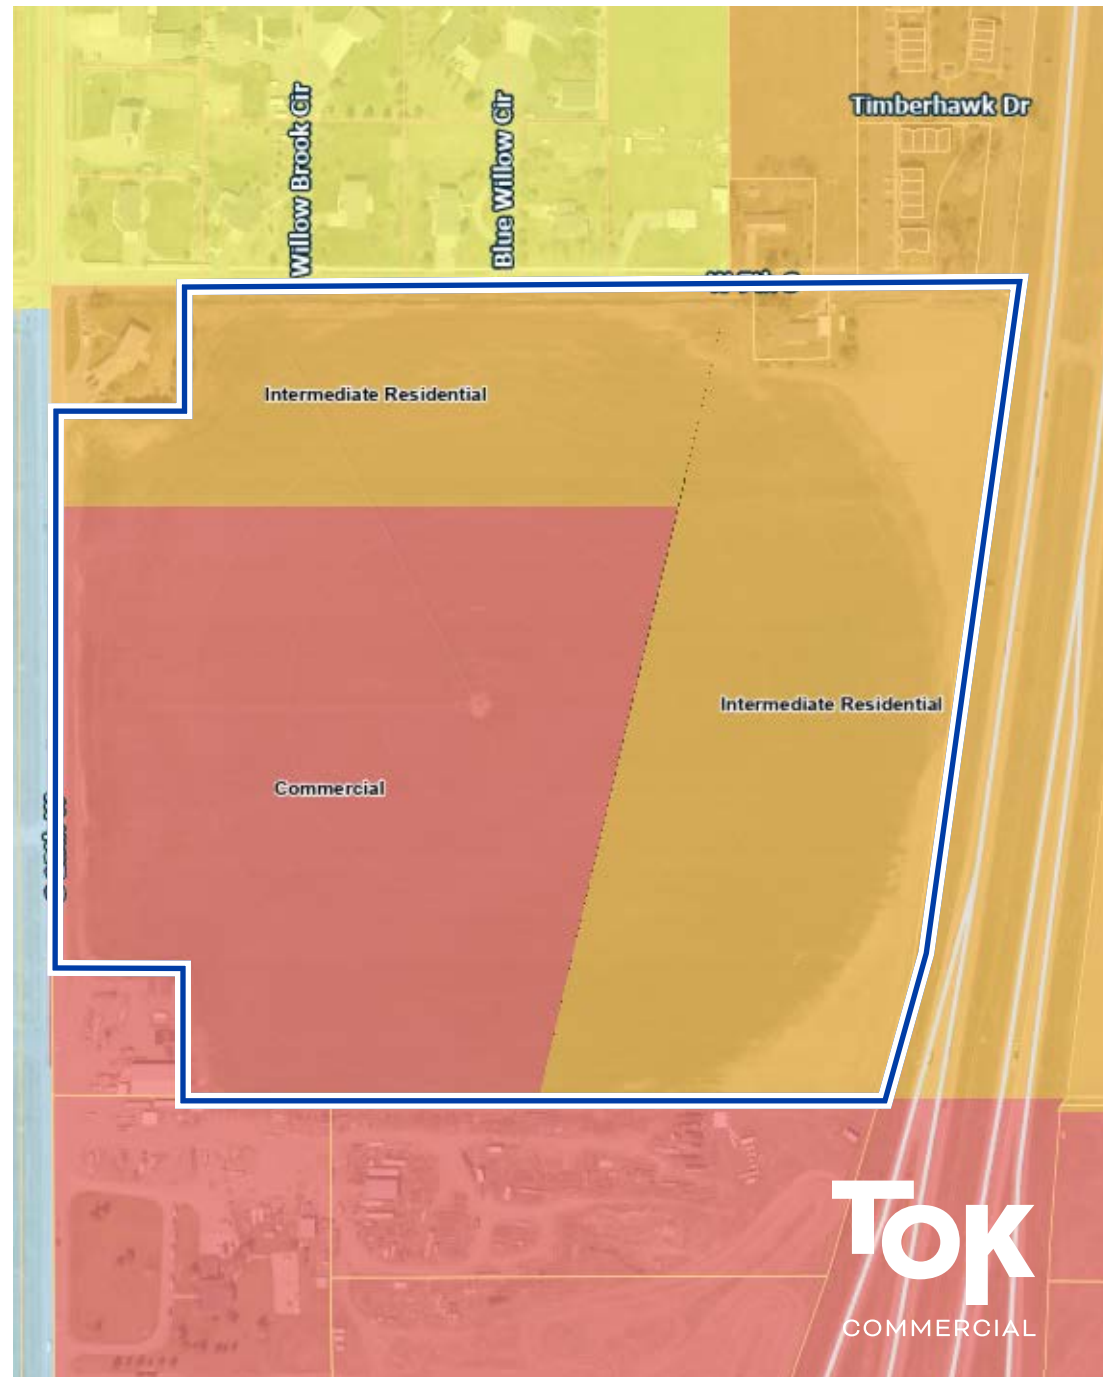

When developed as mixed-use, Commercial areas should promote compact development integrating high residential and community amenities within walking distance.

IR

INTERMEDIATE RESIDENTIAL (IR)

The Intermediate Residential areas are intended to develop as complete neighborhoods, with small-scale services and public amenities within walking distance. IR areas are characterized by a wider mix of housing typologies incorporated detached and single-unit homes, townhomes, duplexes, fourplexes, and courtyard apartments. Secondary uses may include businesses, daycares and other small-scale services compatible with the character of the area.
