1,804 SF of prime end cap space is available in Maine Crossing, an open-air shopping center located at the hub of retail activity in Greater Portland—the largest metropolitan area in Maine.

Anchored by Target’s number one volume store in the state, Maine Crossing features over 10 stores and restaurants, including dominant retailers Target, Burlington, Sierra, and Nordstrom Rack.

The site’s excellent access and visibility from I-95/Maine Turnpike and proximity to I-295 make Maine Crossing convenient for regional and local residents and visitors—from downtown Portland and from areas north and south.
