Located within the Kakaako Community Development District, this exceptional property offers a rare combination of space, flexibility, and long-term potential in one of Honolulu’s most rapidly evolving neighborhoods. Set on approximately 6,000 sq. ft. of level land, the property features three distinct living areas, ideal for multi-generational living, rental income, or a strategic investment: Upstairs: 3-bedroom, 2-bath (~1,241 sq. ft.) Downstairs: 3-bedroom, 2-bath (~1,201 sq. ft.) Attached ADU (built 1997): 3-bedroom, 2-bath (~1,128 sq. ft.) With a total of 9 bedrooms and 6 bathrooms, the possibilities are expansive—live in one, rent the others, or accommodate extended family with ease. A standout feature is the expansive 6-car tandem carport plus additional driveway and street parking, accommodating residents and guests with ease—an uncommon advantage in this urban location.
