OAKLAND SMALL MULTIFAMILY CONTEXT

Oakland 2–4 unit multifamily transactions have historically traded in the 8–12× GRM range, with cap rates typically falling between 5.0% and 7.5%. The Clinton / San Antonio / Fruitvale submarket trades narrower than Rockridge or Grand Lake but has shown resilient absorption and consistent rent growth. The subject's 9.61× GRM and 7.04% proforma cap rate sits favorably within this range, offering stabilized, fully-occupied cash flow with measurable upside at Unit B turnover and as special assessments roll off.
