RESIDENTIAL ANALYSIS

Residential Study *The Shoppes At Lakeridge* Okeechobee County, FL

Okeechobee County originated in the early 1800s as the center of Florida's cattle and freshwater fishing industries. In 2023, Okeechobee County is home to 40,266 residents and has 12,987 households; and is staging a significant population increase. To this day, Okeechobee is considered a vital part of the Agricultural, Cattle, and Citrus industries of the State of Florida. One of the largest draws then and now to Okeechobee is the yearlong tropical weather and Lake Okeechobee activities.

During the seasonal months of September to April, the County's population increases by 62.5% to 65,432 people, due to the influx of seasonal renters and homeowners. Also, during these months the County hosts several large, planned events that draw in well over 10,000 tourists annually.

Okeechobee's population and economy are experiencing recent strong growth due to its desirable location relative to SW Florida, SE Florida and Orlando metropolitan areas. Driven primarily by a more affordable cost of living, attainable home pricing and an active lifestyle with substantial outdoor recreational options for residents.

<u>Demographics 2023</u>	2 Mile	5 Mile	10 Mile	Trade Area (County)
Population	8,960	26,412	35,522	40,266
Seasonal Population (September – April)	14,560	42,919	57,723	65,231
Average HHI	\$71,458	\$59,799	\$62,249	\$64,588
2026 Population	11,670	60,292	69,402	74,146
2026 Seasonal Pop.	17,270	76,799	91,603	99,111

To meet the current demand for housing, Okeechobee has several new residential communities being developed and in various stages of planning and construction. According to the Okeechobee County Planning Department, there are approximately 6,800 new households proposed and in development for 2024 through 2026 delivery. This will represent an increase of approximately 33,880 new residents into the County (2026 projection - approximately 74,146 total permanent residents and approximately 100,000 total seasonally adjusted). This does not account for the added impact of the 400 unit Bass Pro Shops Okee-Tantie Resort, which will add an additional new 30,000 visitors/consumers per year (600/week) to the hospitality/extended stay sector of this market.

These projects include:

Project Name	Number of New Homes	Distance to Shoppes at Lakeridge	Increase to Estimated Population
