EXECUTIVE SUMMARY

1963 East Willis Road & 1915 East Willis Road
Gilbert, Arizona 85297

The properties at 1963 East Willis Road & 1915 East Willis Road in Gilbert present a compelling opportunity to acquire two adjacent land parcels within one of the most established and rapidly expanding healthcare corridors in the Southeast Valley. Strategically located near Dignity Health Mercy Gilbert Medical Center, the site benefits from immediate proximity to a dense concentration of medical providers, hospital infrastructure, and a growing patient population.

This offering is uniquely positioned for a medical office or outpatient-driven development, supported by strong physician demand and continued institutional investment in the surrounding area, including expansion from Phoenix Children's Hospital. The combined parcels allow for a thoughtfully designed proposed 52,000 square foot medical campus across three buildings, providing flexibility for owner-users, group practices, or investors seeking to capitalize on the shift toward outpatient care delivery.

With continued population growth, increasing healthcare utilization, and limited remaining medical-zoned land near Mercy Gilbert, the site offers a rare opportunity to develop in a supply-constrained submarket. Overall, this offering is well-positioned to capture long-term value through alignment with the sustained expansion of the East Valley's healthcare ecosystem and the growing demand for high-quality outpatient medical space.

Mercy Gateway Medical Campus represents a rare opportunity to develop ±5.03 acres of prime medical land within one of the most established and rapidly expanding healthcare corridors in the Southeast Valley.

Strategically positioned within the Town of Gilbert's Melrose Improvement District, this site is not a standalone project, it is a direct extension of a larger, planned healthcare ecosystem anchored by Mercy Gilbert Medical Center.

This offering provides developers, healthcare operators, and investors the ability to deliver a purpose-built medical campus in a location where demand, infrastructure, and surrounding tenancy are already proven.

- Located within the Mercy Gilbert Healthcare Corridor
- One of the last remaining vacant medical sites in the immediate trade area
- Purpose-built for medical office, outpatient services, and specialty care

SITE PLAN

1963 East Willis Road & 1915 East Willis Road
Gilbert, Arizona 85297

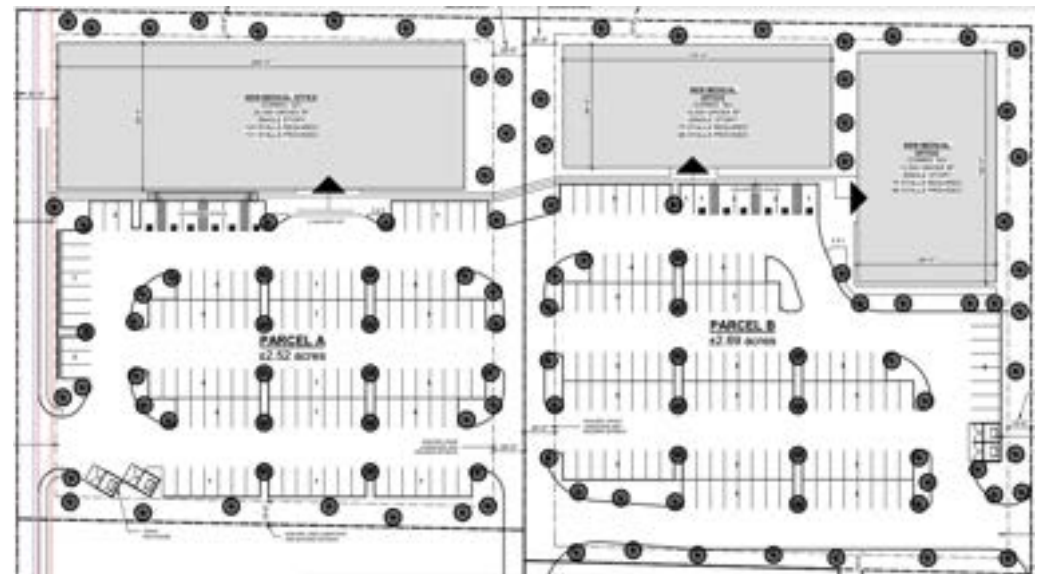

The preliminary architectural test-fit outlines a 52,000 SF medical campus designed to support a variety of outpatient and specialty medical uses:

- 1 ±24,000 SF Single-Story Medical Office Building**
- 2 ±14,000 SF Single-Story Medical Office Building**

Total Build-Out: ±52,000 SF Medical Office Space

- Efficient parking layout with ±262 total stalls across both parcels
- Designed for flexibility to accommodate multi-tenant or single-user configurations

This layout allows for phased development, owner-user opportunities, or institutional investment strategies, and is ideally suited for physician owner/users, physician groups, and medical providers seeking space for clinics, ambulatory surgery centers (ASC), and outpatient care facilities.

SUBMARKET OVERVIEW

1963 East Willis Road & 1915 East Willis Road
Gilbert, Arizona 85297

The property at 1963 E Willis Rd is strategically positioned within one of the most dynamic and rapidly expanding healthcare corridors in the Southeast Valley, anchored by Dignity Health Mercy Gilbert Medical Center. This established medical hub currently features a 197-bed full-service hospital, a 22-bed pediatric unit, more than 1,400 employees, and over 1,000 affiliated physicians, creating a strong foundation of patient demand and referral networks for surrounding medical users.

The area continues to see significant institutional investment, highlighted by Phoenix Children's Hospital planning its largest East Valley tower expansion at Mercy Gilbert. This major addition is expected to further accelerate pediatric and specialty care demand, reinforcing the long-term viability of the surrounding outpatient ecosystem and increasing patient draw across the region.

Within a 5-mile radius, the Outpatient Market Scenario Planner (MSP) data demonstrates strong and sustained growth across key service lines critical to physician ownership and outpatient investment strategies. Notably, specialties such as Endocrinology (+32.2% 5-year growth), Cardiology (+22.3%), Orthopedics (+21.5%), and Physical Therapy/Rehabilitation (+23.4%) are all projected to see meaningful increases in patient volume, while high-demand categories like Lab Services and Evaluation& Management visits continue to scale with population growth. This data underscores a clear trajectory toward outpatient migration and supports long-term absorption for medical office, ASC, and specialty clinic users.

The immediate trade area is already densely populated with leading providers including OrthoArizona, Sonoran Spine, Southwest Kidney Institute, and Arizona Center for Cancer Care, creating a synergistic healthcare environment that benefits from shared referrals, proximity to hospital infrastructure, and operational efficiencies. Combined with strong demographics, continued residential growth, and accessibility via Loop 202, the submarket offers a compelling opportunity for physician owners, developers, and investors seeking to capitalize on one of the most supply-constrained and high-growth medical corridors in the Phoenix metro.

OUTPATIENT MARKET PLANNER SCENARIO

The outpatient Market Scenario Planner (MSP), as developed by the Advisory Board, provides current and projected patient utilization estimates for specific specialties in key markets across the United States. The following data is representative service line growth within a 5 mile radius of the project.
