The Location

COMPTON CA

Compton's easy accessibility to and from five freeways and the affordability of its housing has drawn additional residents and sparked the interest of developers. In the first few years of the century, developers constructed over 100 new homes and built a new Rite Aide, Wells Fargo Bank, two Starbucks, and a number of retail/commercial centers. The burgeoning student population required the Compton Unified School District to construct William F. Jefferson Elementary School, the first new school in the district in 35 years.
