CONNECT EVERYWHERE

Junction is strategically located adjacent to J10 of the M1, for fast connections to the North, the Midlands and London & the S.E.

FUTURE-CENTRIC DESIGN AND CONSTRUCTION

A premium grade logistics park that is pushing the boundaries on design, build and well being.

A SUSTAINABLE VISION FOR LUTON

Sustainability at the heart of every stage, exceeding our green credentials target, and improving the work environment.

Our focus is on prioritising our customers' future needs rather than just the present, that's the energy behind every commitment we make.

The units will have refreshment and break-out facilities for relaxation and communal engagement, as well as transport facilities within the park.

Well-Being

Community and employee well-being is a priority. We will be utilising green space and creating cycle, walking and running paths, sound dampening landscaping and new tree planting for increased air quality.

The Vision

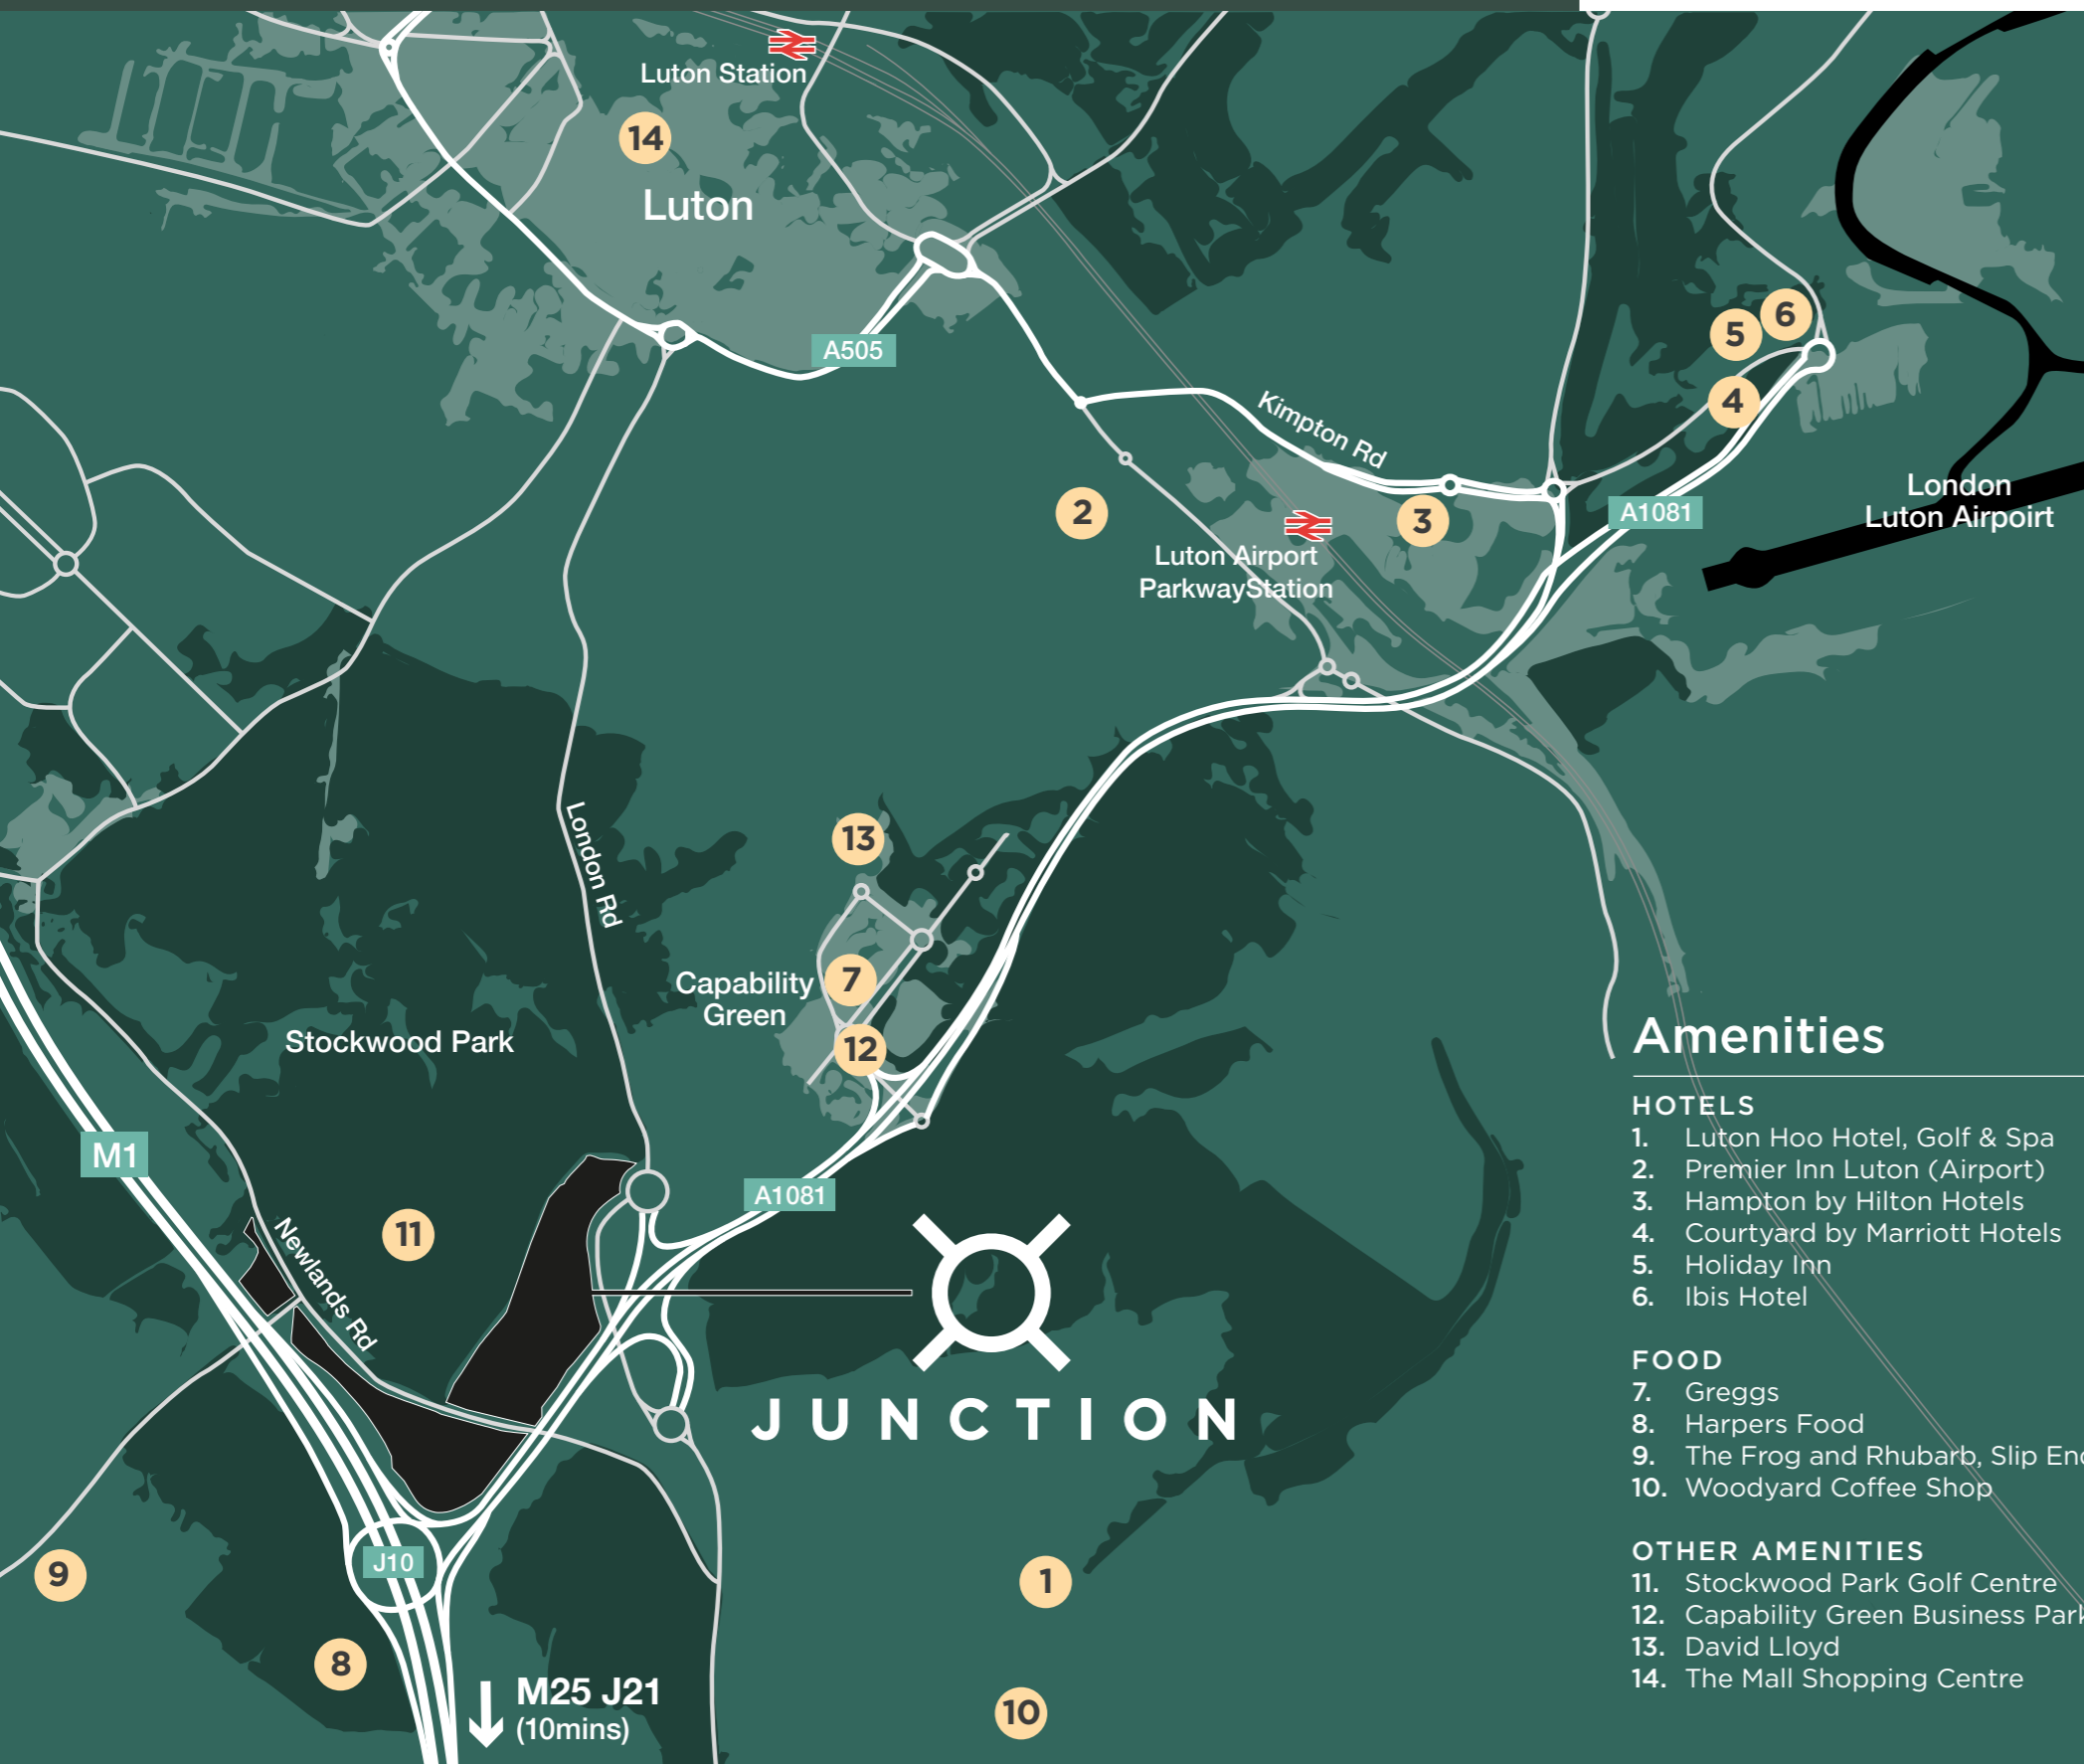

Pushing the boundaries on specification and sustainability, for a new generation of enlightened occupiers.

The new Grade A scheme will be built to meet EPC A+ & BREEAM Excellent.

It will provide a 'green' amenity mix & feature architectural design materials, that put energy reduction, environmental sustainability, community integration and a zero emissions target at the heart of the development.

The development of Junction will create immediate employment for a large local work force, as well as job opportunities working for our future tenants.

Luton

Luton has great transport links reaching many major cities by road, rail and air making it an ideal place to invest and grow.

You can access over 23m people within two hours' travelling time from Luton. Luton is located 30 miles from north London by road.
