Georgia Cyber
Innovation & Training
Center

gacybercenter.org

706.721.0949

The Georgia Cyber Innovation & Training Center is located in Downtown Augusta, GA, and includes two state-of-the-art buildings that overlook the Savannah River on one side and Downtown Augusta on the other. The building's combination of private sector along with the military, and academic communities makes the Georgia Cyber Center a unique hub for collaborative innovation.

Class-A office spaces are available for lease in every size to industry-related organizations. Groups within the Georgia Cyber Center benefit from the adjacent dedicated parking deck and proximity to many pieces of the heart of Downtown Augusta, such as The Augusta Riverwalk, the Augusta Convention Center & Marriott Hotel, and the shopping, dining, and entertainment districts along Broad Street. Partners are eligible for LDCT State of Georgia tax credits while being located in a qualified HUB Zone.

WHY THE GEORGIA CYBER CENTER

EDUCATION:

The Georgia Cyber Innovation and Training Center is home to unmatched talent and training for tech and cyber industries

- Augusta Technical College provides associate degrees in programming, cybersecurity, cloud computing, networking, and computer support
- Augusta University's School of Computer & Cyber Sciences offers bachelor's, master's, and Ph.D. programs in computer science, IT, cybersecurity, cyber operations, data science, and engineering (cybersecurity and biomedical systems)

WORKFORCE DEVELOPMENT:

The Georgia Cyber Center's Training Team delivers affordable, best-in-class training to customers ranging from K-12 education to seasoned government & industry professionals

- Partnered with CompTIA, EC-Council, and Cisco Networking Academy to deliver industry certifications and customized workforce programs
- 500+ federal/state employees trained in 2025; 4,500+ K-12 students contacted through various outreach and on-campus programs

WHY THE GEORGIA CYBER CENTER

RESEARCH & DEVELOPMENT:

Our campus is home to two federal research laboratories (Department of Defense and Department of Energy), 50+ research faculty from Augusta University's School of Computer & Cyber Sciences, 60+ doctoral students, and private sector researchers who are helping solve the hardest real-world technology challenges

CYBERSECURITY SERVICES:

We provide vital cybersecurity services (CISO-as-a-Service and SOC-as-a-Service) to local public and private sector organizations – leveraging our amazing student population, led by industry experts, to provide affordable and highly effective protection from cyber threats

THE GEORGIA CYBER RANGE:

A powerful and agile private cloud that supports both education and research of integrated IT/IOT/OT environments – also hosts the largest and most sophisticated state-level cyber exercise in the nation

THE GARAGE MAKERSPACE:

A combined collaboration area, hackers' space, and fabrication lab for creating almost any level of software and/or physical prototypes
