# Floor Plan

±519,792 SF | Divisible to ±245,000 SF

# Masterplan

## Built to Scale. Ready at Every Size.

From 50,000 SF to 1,201,200+ SF

Sandy Run Industrial Park is located in the counties of Lexington and Calhoun, which have seen continuous growth in their industrial markets. Sandy Run is a ±760.9-acre, fully entitled industrial park with access to all utilities.

The park features direct access from Highway 21 on Interstate 26 (Exit 119) and is located near the Amazon Distribution Center, Nephron Pharmaceuticals and the Columbia Metropolitan Airport. The park is strategically positioned close to I-77 and I-20, allowing for a quick and efficient distribution process for a multitude of manufacturing purposes.

Sandy Run Industrial Park offers unmatched flexibility in scale, accommodating users at every stage of growth. From smaller facilities of approximately 50,000 square feet to large-scale distribution and manufacturing campuses exceeding **1.2 million square feet**, the park's master-planned layout allows companies to right-size today while preserving room to expand tomorrow.

Fully entitled sites, modern infrastructure, and scalable design make Sandy Run a long-term solution — not just a first move.

# Major Users in the Southeast

Three major interstates run through Columbia: I-26, I-20 and I-77. I-95 connects to I-20 and I-26 for easy access to anywhere on the Eastern corridor.

# Central South Carolina

## A Location That Works as Hard as Your Operation

Sandy Run combines infrastructure, access, and labor in a way few Southeast industrial parks can match. Positioned in the heart of South Carolina and the rapidly growing Southeast, the Central SC region's natural geographic advantage translates into efficient connections to customers and suppliers. Combining a desirable location with smart investments in infrastructure, competitive industrial utility rates and a cost of living well below the national average, Central SC delivers a globally connected, world-class home.

[-CentralSC Alliance](#)

## Calhoun County Tax Rate

Calhoun County's exceptionally low property tax rate, competitive utility costs, and pro-business environment provide meaningful long-term operating savings. Paired with a deep, skilled labor pool within a 30–60-minute drive time, Sandy Run delivers both workforce reliability and cost efficiency – critical advantages in today's industrial market.

## Major Employers

# Market Facts

## Industrial Highlights: Columbia, SC

Columbia's ease of accessibility is a primary factor in site selection for both businesses and residents and many are drawn to Columbia due to its convenient location. The Columbia, SC Metropolitan Statistical Area (MSA) is made up of six counties centrally located in South Carolina, halfway between the Port of Charleston and South Carolina Inland Port in the Greenville-Spartanburg market. In addition, major interstates run through the Columbia region, allowing short drive-time access to Charlotte, NC; Atlanta, GA; and Charleston and Greenville, SC, among others. The region's airport, Columbia Metropolitan Airport (CAE), sees more than 1.3 million passengers per year, processes more than 500 million pounds of air cargo and is home to a UPS regional air hub with direct access to the UPS Louisville Worldport.

Additionally, several airports are within a two-hour drive time, including Charlotte Douglas International Airport (CLT), Charleston International Airport (CHS), Greenville-Spartanburg International Airport (GSP) and Augusta Regional Airport (AGS).

Columbia is also positively affected by the robust statewide import/export business throughout the state; the region is seeing more new companies land in Columbia who are directly supporting the booming automotive industry for success in electric vehicle (EV) production. Scout Motors, coming soon ±30 miles from the site, is leading the charge for EV manufacturers and suppliers in Columbia. Also, South Carolina imports are setting records annually. South Carolina Ports continue to move significant volumes through Charleston, handling 2.6 million TEUs in fiscal year 2025, which is up 3% from the year prior. The Port of Charleston is also the deepest port on the East Coast. Inland Port Greer moved 175,873 containers and Inland Port Dillon moved 43,266 containers in calendar year 2023, both record years; rail now carries ~23% of total marine containers to inland markets. With continued investment and rising volumes, the ports show no signs of slowing, and Columbia and the broader Midlands region are directly benefiting—SC Ports estimates \$22.3 billion in annual economic impact in the Midlands driven by port-dependent business activity.
