AMENITY DESIGNATED SF.

Zoning

**NB - Neighborhood Business**

The NB District is primarily intended to accommodate very low intensity office, retail, and personal service uses close to or within residential areas. The district is established to provide convenient locations for businesses which serve the everyday household needs of nearby residents without disrupting the character of the neighborhood.

**UR - Urban Residential**

The urban residential zone applies to properties designated on the zoning map which are suitable for single-family residential uses, including co-housing projects. These areas shall be served by municipal sewer and water. Securing all appropriate and adequate services is a condition precedent to approval of development in these areas. This land-use designation promotes the infilling of development and provides for concentration of development in the downtown and adjacent areas.

Topography Map

Wake Forest

Downtown Wake Forest is known for its big city energy and small town charm. The area is North Carolina’s 9th fastest growing municipality, with dozens of proposed and under constructions developments in the pipeline. Wake Forest is in the middle of a downtown renaissance, seeing much of the same growth as its neighboring Raleigh markets.

Ranking as one of the most highly educated municipalities in the Triangle, over 50% of Wake Forest residents have a bachelor’s degree or higher. The small town has big connectivity with quick access to three large universities (UNC-Chapel Hill, NC State, and Duke), as well as multiple community colleges and Downtown Wake Forest’s Southeastern Baptist Theological Seminary.
