COMPANY OVERVIEW & RECENT PROJECTS

Since our founding in 2016, our team primarily focuses on building meaningful relationships across the real estate development industry. These relationships have provided the ability to access unique market data and opportunities. Wigeon has approximately 2,000,000 square feet of industrial and multifamily planned or under development in the South East.

Our Capabilities

As a fully integrated, private equity developer, we're proud to offer in-house engineering and construction. We are able to utilize our internal teams while also bringing in the best outside partners and resources when necessary.

At Wigeon Capital, every project is personal. That means that we not only invest creatively in every construction project, we also back each project with our own capital.

We oversee everything from planning, entitlement, engineering, and financing to construction, leasing, and disposition. This approach makes us uniquely positioned to ensure the success of every project.

For all these reasons and more, we proudly stand behind each investment.
