Greener Buildings, Brighter Futures

Buckingham 40 has been designed with sustainability and responsible development at its core. The property supports a low-carbon future through its BREEAM "Very Good" and EPC A ratings, demonstrating compliance with leading environmental standards. With active electric-vehicle charging points, solar-power potential (estimated to generate 200 kW or 191,000 kWh per year, the site embodies practical sustainability. The landscaped surroundings and accessibility via pedestrian and cycle routes further enhance its environmental and social impact, aligning with modern ESG benchmarks for industrial and logistics assets.
