Winchester Road's recently completed expansion to six lanes (four now in operation) will also ensure easy and convenient access to French Valley Village Center.
- French Valley Village Center is at ground zero of a grossly underserved and growing trade area! The current defined trade area (based on the Derrigo Study) consists of 102,865 people currently within the defined boundaries of the centers Power Tenant Trade Area Per the recently completed Derrigo Housing Study that demonstrates the tremendous growth in the trade area. There are over 20,000 units currently active in the Power Tenant Trade Area consisting of 16 large tentative tract maps under construction and an estimated population increase of 65% (67,613 additional people) representing a total build out/future population of 170,478 people based purely on the housing that is in some stage of development/planning! This estimation just includes what residential projects are currently being planned and there remains thousands of acres of undeveloped residentially zoned parcels of land in the center's trade area yet to be touched with the potential of tens of thousands of additional residential units in the future expanding the trade area population considerably!
