- E. Minimum front yard: 50 feet from all streets.
- F. Side yards: 20 feet aggregate total with minimum of eight feet, provided that when a written agreement is provided by adjoining property owners, no side yard shall be required between properties of separate ownership where two or more commercial uses abut side to side. In case of a series of abutting structures paralleling a public right-of-way, an open and unobstructed passage of at least 30 feet in width shall be provided at grade level at intervals of not more than 200 feet.
- G. Minimum rear yard: 35 feet.
- H. Maximum building height: 60 feet. **[Amended 7-26-2007 by Ord. No. 19-2007]**

**§ 285-104. Regulations for gasoline service stations.**

Gasoline service stations shall be subject to all of the following standards and regulations:

- A. Lot dimensions. Lots shall be at least 20,000 square feet in area, with a minimum lot depth of 125 feet and a minimum lot width of 125 feet.
- B. Minimum frontages.
- (1) In order to minimize traffic hazards and permit safe ingress and egress to and from service stations, the following minimum frontages are required:
    - (a) Where stations are located on Township streets or county highways, not less than 200 feet for stations with not more than three dispensing pumps. For every three additional pumps or fraction thereof, there shall be an additional 50 feet of frontage.
    - (b) Where stations are located on state highways, not less than 250 feet for stations with not more than three dispensing pumps. For every three additional pumps or fraction thereof, there shall be an additional 50 feet of frontage.
  - (2) Each meter and dispensing hose shall be considered a separate pump.
- C. Pump locations. All fuel pumps, appliance and air pumps shall be located at least 35 feet from the street lines and 25 feet away from the side and rear property lines, or edge of any required buffer areas, so as to permit all services to be performed within the lot lines. All other services shall be performed within an enclosed building.
- D. Fuel tanks. All fuel tanks shall be installed underground.
- E. Driveways.
- (1) Driveways shall not be more than 25 feet wide at any point thereof.
  - (2) There shall be a minimum distance of 30 feet between driveways as measured from the edges of the paved portion. Driveways shall be at least 10 feet from the adjoining property line and at least 20 feet from the street line of any intersecting street.
  - (3) There shall be a maximum of two driveways on any street.
- F. Paving. The entire area of the station or garage or sale area traversed by motor vehicles shall be macadam or concrete.
- G. Station location. No gasoline selling or service station, or area so utilized, shall be located within 500 feet of any property upon which a church, nursing home, hospital, public or parochial school, private school, college, institution or theater shall be located; nor shall any gasoline selling or service station be located within 2,000 feet of another gasoline selling or service station. Such distance shall be measured from the property or lot line on which the proposed service station is to be located on a straight line to the property line or lot line on which the church, hospital, public or parochial school, private school, college, institution, theater or gasoline or service station shall be located.
- H. Buffer yard; setback; canopies; building area and height.
- (1) Buffer yard. A buffer yard of not less than 50 feet in width shall be provided on any special use when such special use is located within 50 feet of any residential zone. Such

distance shall be measured as provided in Subsection G above. This buffer yard shall be used only as a planting strip in which hedge, evergreens shrubbery or other suitable planting shall be provided and maintained with a visual screen year round.

- (2) Setback. The walls of any building shall be set back at least 25 feet from every adjoining property line or required buffer yard and at least 50 feet from a street right-of-way line.
  - (3) Canopies. Canopies or roof overhangs attached to or extended from the buildings shall not extend more than five feet from the building.
  - (4) Building area and height not more than 2% of the area of each lot may be occupied by buildings. No building shall exceed one story in height.
- I. Outdoor activity. All lubrication, repair, maintenance or similar activities shall be performed within a completely enclosed building. In addition thereto, all displays and sale of merchandise shall be made or sold within a completely enclosed building, except as specifically provided or allowed under the terms of this article.
  - J. Parking. Sufficient parking space for all vehicles of employees and patrons shall be provided, with a minimum of five spaces in any event, with the total number of spaces computed on the basis of three spaces for each lift, wheel alignment pit, bay or similar work area, which spaces shall be separate from the driveway and general apron areas giving access to the air pumps, gasoline pumps and garage doors.
  - K. Sale of vehicles. No automobile, truck, trailer or boat shall be allowed to stand on any gasoline selling or service station property publicly advertising such vehicle for sale.
  - L. Residential use. No part of any gasoline selling or service station may be used for resident or sleeping purposes.
  - M. Signs. Signs shall be erected in accordance with the requirements enumerated in Article XXXVI of this chapter, except that no sign shall exceed 25 feet in height; nor shall any sign be erected less than 15 feet from any curb or property line.
  - N. Utility lines. All electric, gas, telephone and other utility lines and uses shall be installed underground.
  - O. Lighting. Exterior lighting shall be shielded so that it is deflected away from adjacent properties and from passing motorists.

#### **§ 285-105. Other regulations.**

- A. There must exist approved public water and public sewer systems which shall be available to each unit prior to the issuance of the building permit.
- B. All other applicable regulations of this chapter shall be followed as required.
- C. For developments to be constructed over a period of years, a phasing plan shall be submitted as part of the preliminary plan for the entire concept.
- D. The buildings, sizes, shapes, site positions and architectural design may be considered along

with the landscape and natural features.

**§ 285-106. Special regulations for used car lots. [Added 4-13-2000 by Ord. No. 4-2000]**
