

At its core, Palm Key is a wellness community. Our deep connection to the healing power of nature, creative expressions, community connection and self-care makes Palm Key the perfect setting for both individuals and groups to step away from the pressures of life and be renewed.

Palm Key is a community of cottages and associated facilities which afford individuals, families and groups the perfect place for a vacation, a reunion, or celebration. Our meeting facilities provide the perfect setting for private retreats and corporate meetings and can accommodate up to 200. We provide accommodations with or without meals.

Our award winning Colony of Cottages is nestled on a private 350 acre island. These picturesque cottages are built by John Tilton Homes (www.johntiltonhomes.com) and each is fully appointed with beautiful kitchens, 1-3 bedrooms, spacious living areas and porches with rockers, swings, and spectacular views.

Throughout the year Palm Key hosts a number of events, programs, and retreats. Information about these can be found in our web site - www.palmkey.com where you can also sign up for our electronic newsletter.

PALM KEY *It's all about Feeling Better!*
