180' truck court

PROPERTY OVERVIEW

Admiral 145 is a newly constructed, Class A industrial building just south of I-44 in one of the region’s most established industrial corridors. A key advantage is its close proximity to the Tulsa Port of Catoosa, one of the nation’s largest inland multimodal ports, offering barge, rail, and truck service to the Mississippi River system and beyond. The surrounding area supports industrial operations with large parcels, truck-friendly infrastructure, and available workforce.
