

1 THIRD FLOOR
SCALE 1:100

Statutory Maximum Headcount Information & Conditions/Assumptions Table

NIA (Sq m)	WORKSTATION NO.	WC PROVISION	MEANS OF ESCAPE
86*	20	125**	TBC***

Notes

Workstation size = 1200 x 800 mm
 * NIA = 86 sq m / 926 sq ft (CAD measured based on original layouts provided by The Boutique Workplace Company)

Building Control

** WC Provision calculated across all buildings and all floors as one unit. The WC provision has been calculated using BS 6465 1994 using a 50/50 male/female split. The existing WC provision in total can accommodate a population of 125 people and is made up as follows:
 Basement = 00 No. WC's
 Ground Floor = 00 No. WC's
 First Floor = 01 No. WC's
 Second Floor = 02 No. WC's
 Third Floor = 02 No. WC's
 Fourth Floor = 01 No. WC's
 Fifth Floor = 00 No. WC's
 Total = 06 No. WC's (125 people)

*** The means of escape maximum occupancy for this building would need to be confirmed by building control and the fire officer.

All statutory information provided is subject to comment and approval by Building Control and Fire Consultant.
 All headcount information provided is subject to approval by an MEP Consultant in terms of fresh air provision.
