For over 20 years Mr. Gerszberg has developed many commercial and residential projects with a focus on Class A warehouse. 2020 Acquisitions is currently developing over 10,000,000 square feet of industrial warehouses from Massachusetts to Maryland.

The following projects exemplify 2020's development capability in the warehouse sector with an emphasis on environmentally and physically challenging developments:

- 2020 Acquisitions recently achieved redevelopment plan approval and preliminary approval on a 600 acre project in Central NJ which will consist of approximately 4,200,000 square feet of Class A warehouse.
- Developed and ultimately leased, to LG Electronics, a 923,600 sf warehouse in Franklin Twp. New Jersey. 2020 obtained all of the approvals and permits on the environmentally contaminated site. The project was a finalist for NAOIP's Deal Of The Year.
- Recently developed and leased a 700,000 square foot warehouse in Edison NJ. Site was environmentally constrained and purchased from a state university.
- Recently entitled and currently under construction on a 610,000 sf warehouse in Mansfield, NJ. Project achieved redevelopment zoning and Tax PILOT.
