City Information

VERRADO

Verrado is an 8,800-acre master-planned community in Buckeye, Arizona developed by DMB Associates, Inc.. At full build-out, Verrado is planned for approximately 14,080 homes and 4 million square feet of commercial, office, and light industrial space. Today, the community includes roughly 7,800 completed homes, more than 17,000 residents, and five established commercial districts, with significant additional retail planned through the Verrado Marketplace. Designed around a traditional Main Street and walkable neighborhoods, Verrado blends residential living with parks, schools, golf courses, trails, and local businesses. The mix of housing types – including single-family homes, townhomes, and the active-adult Victory district – combined with its growing commercial footprint, positions Verrado as one of the West Valley’s most established and expanding mixed-use communities.
