EXECUTIVE
SUMMARY

EXECUTIVE SUMMARY

The opportunity is currently improved with a multi-tenant configured building. The asset is supported by 12 parking spots in front of property with easy egress and ingress and is currently 100% occupied with four retail tenants. Three of the four tenants are on short-term leases, providing investors and owner-users with significant near-term flexibility.

This lease structure creates a unique opportunity to increase rents to market, re-tenant the property, or reposition the tenant mix to maximize long-term income and asset value. With a weighted average lease remaining term of approximately 1.22 ys, the asset is positioned for a fast path to income growth.

For owner-users, the short-term nature of the existing leases offers a rare ability to strategically occupy a portion of the property, while supplementing income from existing tenants to help offset any debt service and expenses.

This flexibility allows a buyer to tailor occupancy to their business needs while benefiting from the property's exposure and established location.
