EXECUTIVE SUMMARY

4629-4653 OTIS STREET

WHEAT RIDGE, CO 80033

4629-4653 Otis St is a 13-unit multifamily property located in Wheat Ridge, a consistently stable rental submarket within the Denver metro. The asset is positioned in a residential neighborhood with strong access to major corridors and employment centers, supporting steady tenant demand and occupancy. The Property offers in-place cash flow with the ability to continue improving rents over time.

The Property has undergone a comprehensive renovation program. A majority of the units were taken down to the studs, while the remaining units have been fully upgraded, including new electrical and plumbing systems. Interior finishes include updated kitchens, bathrooms, flooring, and fixtures, providing a consistent unit product across the property. Capital improvements also include a newer roof and gutters, newer windows, and a boiler replaced approximately three years ago, eliminating near-term capital requirements.

Additional operational improvements include a fully renovated laundry facility and well-maintained common areas. The Wheat Ridge market continues to benefit from its proximity to Denver, accessibility, and limited new multifamily supply, supporting stable occupancy and rent growth. Overall, the Property represents a stabilized, renovated asset with significant operational and rental upside.

2026 ECONOMIC OVERVIEW

Denver’s multifamily market is moving toward a late-cycle reset as new deliveries remain elevated but forward supply is clearly decelerating. Vacancy is approximately 11% (Q4 2025), reflecting the concentration of recent deliveries in the high-end segment and persistent use of concessions to maintain occupancy. Even so, demand has been resilient, with net absorption totaled roughly 9,000 units over the past 12 months, helping narrow the imbalance as leasing season improved. Asking rents are still down year-over-year (approximately -3.5%), but the market is increasingly bifurcated: newer luxury product is competing hardest, while well-located workforce and mid-tier communities are stabilizing faster. With roughly 7,000 units under construction and new project starts meaningfully lower versus the prior cycle, the pipeline appears set to ease, positioning the market for firmer fundamentals and improved rent growth as 2026 progresses.
