Offering Summary

Trinity Partners, LLC, on behalf of the Owner, is pleased to serve as exclusive advisor for the sale of 301 Gregson Drive (“Gregson” or the “Property”), a mission-critical research and development (R&D) facility located in the high-performing suburb of Cary, North Carolina, a central part of the greater Raleigh-Durham metropolitan area. Spanning 33,232-rentable-square-feet, the Property has been fully occupied by SmallHD (the “Tenant”) for nearly a decade; the Tenant recently extended its term through October 2029 as it continues to enjoy the functionality of the purpose-built facility.

Located within the Research Triangle region, the Property and Tenant benefit from proximity to one of the most prominent innovation clusters in the United States, anchored by Research Triangle Park and major universities including Duke University, the University of North Carolina at Chapel Hill, and North Carolina State University.

This lease will provide an investor with dependable, creditworthy income via the newly renewed lease commencing in October 2026. With minimal landlord responsibilities and annual rental escalations of 3.5%, the offering presents an exceptional opportunity to own a high-quality asset in a dynamic, high-growth market.

MISSION CRITICAL US HEADQUARTERS LOCATION IN THE RESEARCH TRIANGLE REGION

The Property serves as a mission-critical engineering, product development, and operational hub for SmallHD, a leading provider of premium video monitors and software solutions for the film, television, and digital content production industries.

The building's specialized configuration—combining office, engineering workspace, testing environments, and light production capabilities—allows the tenant to integrate research, product development, and operational functions within a single facility.

This functional alignment between the tenant's core business operations and the property's R&D/flex design supports long-term tenancy stability and strong tenant retention characteristics.

GLOBAL CORPORATION WITH U.K. BASED PARENT VIDENDUM PLC

SmallHD operates as part of the Creative Solutions division of Videndum plc (LSE: VID), a Richmond, UK based, publicly traded global provider of premium branded products and solutions serving broadcasters, cinematographers, and content creators worldwide. Founded in 1910 and listed on the London Stock Exchange, Videndum maintains a diversified global platform with approximately \$380 million in revenue (FY 2024) and roughly 1,300 employees across North America, Europe, and Asia.

Videndum operates through three primary business segments—Media Solutions, Production Solutions, and Creative Solutions—with the latter focused on the design, manufacturing, and distribution of high-performance products for film, television, and live production. This includes video transmission systems, lens control systems, professional monitors, and a range of camera accessories. The Creative Solutions division accounts for approximately 20% of the company's total revenue.

SmallHD, a recognized industry leader in premium on-camera and production monitors, serving a global customer base and representing a key brand within Videndum's Creative Solutions platform. The tenant's operations at Gregson serve as the North American headquarters for this division, supporting engineering, product development, and operational functions tied to its professional video monitor product line.
