CAPITAL IMPROVEMENTS

Capital Improvements | 5201 Gershwin Ave N

EXTERIOR:

- Replace the entire roofing system. Removed the old and installed new ISO insulation to meet current energy codes and completed with a fully adhered EPDM system
- Re-finished exterior metals with new all weather black paint
- Replace damaged downspouts
- Replaced old windows with new Andersen 100 Series Fibrex windows
- Window tint applied around building for commercial privacy
- Re-coated parking lot
- Removed old thick shrubbery and trees from the east side of the building, surfaced in tamped Class IV to create 4,125 sf of usable outdoor storage
- Installed new exterior safety lighting and surveillance system
- Installed new poured concrete patio on north side of building for outdoor work and break area, or, for hosting company events
- Serviced and tuned rooftop A/C units, replacing key internal components
- Foundation spot repairs complete where prior rain runoff created sinkholes
- Installed keyless entry system for employee access (utilizing employee issued keycards)
- Added 10' PVC privacy fence along southern property line

Value: \$257,740.00

INTERIOR:

- All flooring replaced throughout complete with new base trim
- Refinished all sheetrock and complete with new paint
- Painted interior ceiling, north end of building (changed from green to black)
- All overhead lighting was changed out to new LED lighting systems
- Data lines were replaced with new Cat 6 data lines
- New data racks and equipment installed in server room
- Large doorway was cut and added, in a concrete load bearing wall (required engineering and a custom steel header), to create a pass-through / flow from one side of the office to the other (the building was previously segmented – this change added significant usable office space).
- Full gut and remodel of Men's and Women's bathrooms
- Converted a storage room into two (2) finished office spaces
- Added additional sound-proofed office in center of building (1)
- Refinished conference room walls which had holes, electrical and racking previously installed on full perimeter
- Remodeled break room
- Remodeled and added cabinetry to create a second break room on north end of building
- Replaced many old or damaged ceiling tiles throughout
- Repaired warehouse overhead radiant heating system which was not in working order when the building was purchased
- Added various electrical outlets throughout warehouse to improve access to power
- Security system installed
- Upgraded to modern WiFi mesh system throughout office

Value: \$276,908.27
