Property Highlights

This 160 Acre Ranch is located about 85 miles Northeast of Las Vegas and about 20 miles south of Mesquite, NV. This is what we call a pocket ranch due to the Federal land surrounding the land. With the closest neighbor being seven to eight miles away, there is plenty of privacy and perfect for a tranquil experience away from the city.

A paved road gives access to the property and two miles past the ranch is the entrance to the Gold Butte National Monument, one of the nation's newest treasures.

One of the most striking features are the massive Fan Palms (*Washingtonia Filifera*). They provide shade, cover, and nesting sites for a variety of wildlife, in addition to producing copious amounts of fruit in the fall.

Numerous types of birds migrate through and live on the property. From hummingbirds, orioles and western tanagers that raise their young on the ranch, there are also different species of owls, hawks, sparrows, woodpeckers, finch, and towhees. Additionally, there are hundreds of Quail scurrying around the ranch.

Vegetation: Over 600 drought tolerant trees, bush, and scrubs are watered. A similar number of palms, cottonwoods, and native mesquites require no watering due to the proximity of the springs.

Opportunities await! This unique and special property would be perfect for a personal Family Estate. There is no public power or facilities but the sun and breeze allow for green energy. Among other things this could be ideal for a horse ranch, a youth camp, a retreat, or even a nature preserve or wildlife sanctuary.
