Why Boerne, TX?

Boerne, Texas is one of the Sun Belt's most compelling retail investment markets, combining explosive population growth, an affluent consumer base, and quality-of-life attributes drawing households nationwide. As the gateway to Texas' Hill Country, rapid development along the Northwest San Antonio corridor has extended Boerne's trade area while preserving its distinct identity.

Strategic Location in a High-Growth Metro

Situated 31 miles northwest of downtown San Antonio along the I-10 corridor, Boerne sits at the epicenter of one of the nation's most dynamic metropolitan economies. San Antonio ranked as the fourth fastest-growing large city in the U.S. from 2023 to 2024, adding nearly 24,000 net new residents. The broader San Antonio–New Braunfels MSA has grown by approximately 205,000 people since 2020 — nearly 60% driven by in-migration from other states — and now counts nearly 2.8 million residents.

Exceptional Population Growth and an Affluent Consumer Base

Boerne's population has grown by more than 38% since the 2020 Census, at an annual rate of approximately 4.84%. This growth is driven by deliberate relocation decisions — households seeking safety, schools, and lifestyle — creating sticky, long-term retail demand. Kendall County recorded the highest AMI growth in all of Texas in 2023, reaching \$135,400. Boerne's per capita income has more than doubled since 2000, and median home values now range from \$550,000 to \$630,000 — reflecting a consumer base with substantial disposable income and demonstrated spending power.

Nationally Recognized

The Boerne Independent School District has earned six consecutive "A" ratings from the Texas Education Agency, maintains a 98.3% graduation rate, and is projecting enrollment to nearly double to 18,000 students by 2033 — a powerful indicator of long-term household retention. Violent crime runs 58.7% below the national average, reinforcing the community's premium positioning and the demographic quality of its trade area. At the macro level, Texas offers no personal or corporate state income tax, a \$2.769 trillion GDP (second largest in the nation), and a regulatory environment consistently ranked among the most business-friendly in the country.
