# MESA RETAIL SUBMARKET

**Mesa** is the **second largest city** in the greater Phoenix area, comprising large swaths of the East Valley. The sprawling submarket has the **largest retail inventory** among all of Phoenix's submarkets, with 31.2 million SF of existing stock.

Population growth is driven by relatively **affordable housing** costs and a strong cluster of employers in the advanced manufacturing, healthcare, and customer service industries. Incomes here generally trail other East Valley suburbs like Gilbert and Chandler, though higher household and population density provides a steady stream of consumers for local retailers.

Space availability has steadily compressed during the most recent expansion cycle as **healthy tenant demand** supports market conditions. Though the closure of 99 Cents Only earlier this year left several large big box spaces empty, causing vacancy to rise from an all-time low of 6.6% in 2023 to 7.9% today. Nevertheless, **space availability remains low** by Red Mountain/Mesa standards, which carried a vacancy rate in the high-9% to low-10% range before the pandemic.

Another factor supporting property performance has been the lack of construction activity. More retail space has been demolished than delivered since 2021, and more removals are on the horizon. Workers from Verde Investments began the demolition of Fiesta Mall last summer. The regional mall will be razed and redeveloped into a mixed-use project that includes housing and commercial options.
