The charm of Camberwell

Myatt's
Fields Park

Camberwell is an ideal destination to attract a wide range of employees. Beyond the leafy walks, Georgian facades and ever-growing number of restaurants and bars, a charming and creative atmosphere is thriving.

Fit for business

Bloom Camberwell has been designed to suit the needs of an enormous variety of different sectors. The flexibility of the space itself, alongside its amenities, make it ideal for sectors including last-mile logistics, trade counter, food and beverage, retail, film, manufacturing, e-commerce, dark kitchens, and many more.

Consciously built for the better

Bloom Camberwell encapsulates everything we're striving to deliver with an ultra-urban industrial estate. Heavily design led, it uses brickwork throughout the ground floor to mimic the street it sits on, while a shared, central facing yard looks to contain activity in one area and minimise any residential disruption.

But while it's good at blending in, there's so much that stands out. The development is aligned with the Paris Agreement, and has achieved an EPC A+ and BREEAM 'Outstanding' accreditation. It's car-free, bike-friendly, solar powered, and even has maximised PV density. If it's better for the environment and the people in it, we've done our best to include it.
