Peer Analysis

The Peer Analysis, built by Retail Strategies along with our analytics partner (Tetrad), identifies analogue retail nodes within a similar demographic and retail makeup. The Peer Analysis is derived from a 5 or 10 minute drive time from major comparable retail corridors throughout the country. The variables used are population, income, daytime population, market supply and gross leasable area. The following are retail areas that most resemble this core city:

Peer Trade Areas	
Hereford, TX	300 W 15th St
Taylor, TX	3701 N Main St
Bonham, TX	2021 N State Highway 121
Silsbee, TX	1100 Us Highway 96 N
Mineola, TX	135 Ne Loop 564
Gun Barrel City, TX	1200 W Main St

GAP Analysis \$303,130,649 (Custom Trade Area)

The Gap Analysis is a summary of the primary spending Gaps segmented by retail category. It measures actual consumer expenditures within the City's trade area and compares it to the potential retail revenue generated by retailers in the same area. The difference between the two numbers reflects leakages, or the degree to which consumers travel outside the community for certain retail goods and services. The Gap analysis is a useful tool to gauge retail supply and demand within the community.

Demographics

(10-Minute Drive Time)

Daytime Population 49,489 (Custom Trade Area)

Focus Categories

The top categories for focused growth in the municipality are pulled from a combination of leakage reports, peer analysis, retail trends and real estate intuition. Although these are the top categories, our efforts are inclusive beyond the defined list.
