Property Summary

2368, 2374 and 2378 W Washington Blvd is ideal for owner/user, investor or developer. The property is situated between Western Avenue and Arlington Avenue, both which offer easy access to the Santa Monica (I-10) Freeway. The property is midway between Downtown Los Angeles and West Los Angeles.

The site is configured with various commercial buildings, with 12' to 20' ceiling heights. There is heavy 1200 amps power. The property is ideal for 1) Owner/user: Could use the building for wholesale or retail operations with warehousing capability at the rear of the property. The large on-site parking lot allows for customers and employees to have secure and easy parking. 2) Investor: Could reposition the entire facility and convert it to a cleaner, modern look and feel. The building has potential for multi-tenant or single tenant creative office use. 3) Developer: The site is evenly squared off with 24,000 SF of land. The zoning allows for mixed-use, multi-family, or affordable housing (buyer to verify with the city).

The area is a mix of affordable housing (a new 64-unit site is going up directly across the street), mixed-use, retail and wholesale. The West Washington Blvd corridor is a highly desirable east/west thoroughfare between Downtown Los Angeles and West Los Angeles, with easy access to all sub-markets immediately to the south or north of Washington Blvd.

* Additional 5,788 SF of building area is unpermitted
