HIGH

BARRIER-TO-ENTRY - MARKET

Demand for single-family homes in the Van Nuys submarket is consistently high due to several factors. The city's desirable location, proximity to major employment hubs, and lifestyle amenities attract a high number of families and individuals seeking a suburban setting with access to urban amenities

In terms of supply, Van Nuys has a limited amount of new development land. This, coupled strict zoning regulations, contribute to a relatively limited supply of single-family homes. As a result, the market for single-family homes in Van Nuys tends to be competitive, with properties often selling quickly at or above asking prices.

Feds provide \$893M grant for Van Nuys Boulevard light rail line

The East San Fernando Valley line will travel 6.7 miles within the median of Van Nuys Boulevard, spanning from Van Nuys to Pacoima. Its 11 stations will include connections to the G Line Busway, Metrolink's Ventura County Line, Amtrak's Pacific Surfliner.

Full construction is expected to commence before the end of 2024, and completion of the \$3.6-billion light rail line is expected in 2031. That schedule is years behind what was originally hoped for by Metro, which had once intended to begin serving passengers on Van Nuys Boulevard as early as 2028.
