PROPERTY SUMMARY

OFFERING SUMMARY

SALE PRICE:	\$1,680,000
NUMBER OF LOTS:	28
ACRES:	8.8
ZONING:	R6
ZCP APPROVED	
CIVIL PENDINGS APPROVAL	

PROPERTY DESCRIPTION

The Subject Property is an excellent infill opportunity to acquire 28 residential lots in fast-growing Denton, TX. The property is within walking distance of the Texas Women’s University campus and its 16,000+ students. The University of North Texas campus, with a current enrollment of over 46,000, is less than 2.5 miles away. Additionally, the Historic Downtown Denton Square, home to unique shopping and dining, is just over 1.5 miles from the property. Mingo Road connects to Downtown Denton to the southeast and both University Drive/US 380 and Loop 288 to the northeast.

The property was successfully rezoned to R6 and Final Plat has been submitted for approval. The R6 district is intended to accommodate a variety of housing types on lots designed to encourage walking to neighborhood-serving retail and other amenities such as parks and school facilities. This zoning district will ensure existing neighborhood character is maintained while also serving as a transition area between established single-family neighborhoods and mixed-use neighborhoods, commercial areas, and key corridors. The property is owned by a registered real estate agent of Texas.

OVERVIEW

Founded in 1901, Texas Woman's University (TWU) is a premier public university located in Denton, Texas. While fully coeducational since 1994, TWU holds the distinction of being the nation's largest public university system primarily for women. With a thriving enrollment of over 15,400 students and a dedicated workforce of more than 2,000 faculty and staff, the university is a prominent engine of academic excellence and economic stability within the Dallas-Fort Worth metroplex. TWU is classified as an R2 Doctoral University (High Research Activity) and is nationally recognized for its powerhouse programs in nursing, healthcare, nutrition, and business. Notably, TWU ranks #2 among all Texas public universities for graduate baccalaureate salaries, reflecting the high-caliber, career-driven demographic it attracts to the immediate area.

Universities act as recession-resistant economic anchors. TWU's massive student and workforce population creates a perpetual, recurring demand for nearby housing, retail, dining, and daily services. Graduate students make up approximately 36% of total enrollment. This older, professional demographic—primarily concentrated in high-paying healthcare and education tracks—seeks out high-quality, convenient housing options close to campus.

TWU continues to aggressively expand its local footprint. Major capital projects, including a new 175,000-square-foot Health Science Center on the Denton campus, continue to inject momentum into the immediate neighborhood, driving long-term property appreciation. As one of Denton County's top employers, TWU brings a stable daytime population of staff, researchers, and healthcare professionals directly to the asset's doorstep, fueling local retail and commercial spending.
