RAPIDLY EXPANDING PORT OF CHARLESTON

- The port has experienced outstanding growth in total loaded TEUs over the past decade, most recently reporting record levels of cargo handled during fiscal year 2022 (2.85 million TEUs), as a result of key drivers such as Southeastern population growth, secular shift from West Coast to East Coast ports, and more recently shifts in manufacturing from China to other parts of Asia.
- Totalling nearly \$2.8 billion, the Port's game-changing expansion program is well underway including the delivery of the new Leatherman Terminal (Mar-2021), a new access road connecting to I-26 and the new, dual-access intermodal terminal.
- Following its successful completion in December of 2022, the \$580 million Charleston Harbor Deepening Project increased the depth of the harbor to 52 feet, making it the deepest seaport harbor on the East Coast. 52' depth ensures mega container ships can access terminals free from tidal restriction.
- \$500 million investment to further modernize the Wando Welch Terminal including three (3) more 155' ship-to-shore cranes and 24 rubber-tired gantry cranes which enable the Port to handle three New-Panamax ships simultaneously.
- Charleston is the only Southeast Port of call for ships on the North Atlantic Express (AX1), which considerably expands the Port's connectivity with Northern Europe.
