Legal Fees	Each party to bear their own costs
EPC Rating	E

Description

Unit 6 is a detached, single-storey industrial unit of steel portal frame construction, externally clad with brick and blockwork to circa 2 metres, and profile steel sheeting to the remainder.

The unit benefits internally from an open space and ancillary features that could satisfy a range of different uses. A 4-ton gantry crane is fixed towards the rear of the unit that extends out approximately 9 meters.

Additionally, a sizeable Powermatic heater has been installed at the rear. Natural lighting is provided by translucent roof lights that are built into the steel cladding, offering an opportunity to lower energy consumption.

The unit has a good eaves height of 5.4 metres, rising to an apex of 6.4 metres.

Pedestrian access to the unit is available via a single roller shutter door, while vehicular access is possible via 3 separate roller shutters. The biggest of the 3 measuring 4 meters wide and 3.7 meters high.

Palisade fencing secures the perimeter of the site, with gates providing access from Rhymney River Bridge Road.

Location

Unit 6 Rhymney River Bridge is situated at the North end of Newport Road, adjacent to the slipway of the A4232 (Southern Way). This is one of Cardiff's' main arterial transport routes.

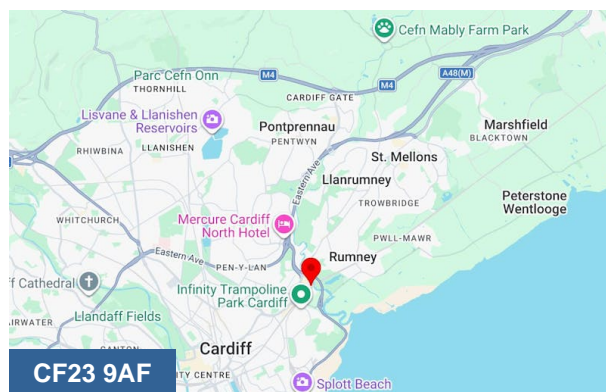

The site is strategically located 5 miles from Junction 30 of the M4, offering excellent road links to cities across the southwest.

The property is in an established commercial trading location with surrounding occupiers including Oren Wellness, Storage Giant, Wickes and Currys PC World.

Accommodation

The accommodation comprises the following areas:

Name	sq ft	sq m	Availability
Unit	4,588	426.24	Available
