¹ Residential accessory structures may be located in side or rear yards only. Minimum setbacks of 10-foot rear (20-foot waterfront) and 5-foot side apply to accessory structures 300 SF or smaller. Accessory structures larger than 300 SF, other than swimming pools, screen enclosures, tennis courts and other similar recreational facilities, shall maintain the same required setbacks as the primary structure. Non-residential accessory structures may be located in any yard and must meet the primary structure setbacks.

² If the width of a required landscape buffer per [Chapter 4, Article III., Section 4.3.12.](#) exceeds the minimum setback the buffer requirement establishes the minimum setback.

³ Waterfront setbacks do not apply to docks and accessory structures associated with activating the waterfront nor do they apply to platted drainage easements. See [Chapter 4, Article II., Section 4.2.7.](#)

⁴ Overall ISR applies to a development as a whole when common area is provided. Open space requirements also apply per [Chapter 4, Article IX., Section 4.9.2.](#) Overall maximum impervious surface area and open space requirements are not applicable for General Development Corporation (GDC) platted lots in the Port Charlotte Subdivision and subsequent Port Charlotte Subdivision Additions.

⁵ R-1 has a minimum dwelling unit size of 900 SF. The minimum size applies to all portions of the structure under air.

Section 3.2.3. Standard Districts Use Standards

- A. **Generally.** The purpose of this Section is to authorize the establishment, expansion, and continuation of land uses that are allowed as the primary uses on land in standard zoning districts. [Table 3.2.3.1.](#) identifies permissible primary and accessory uses in each standard zoning district. In instances where a specific use is not listed, the ULDC Administrator shall utilize the regulations for the most similar use based on the

North American Industry Classification System (NAICS), the Institute of Transportation Engineers (ITE) manual, their successors, or another accepted professional reference.

- B. **Non-Residential Uses in Corridor Districts.** Business activity and deliveries in CT and COR are prohibited between 10 pm and 5 am. No waivers shall be granted to alter hours of operation.
- C. **Residential Uses in Corridor Districts.** Developments proposed to incorporate residential uses in Corridor districts (CT and COR) shall contain a minimum of two (2) distinct primary uses according to [Table 3.2.3.1.](#)
 - (1). **Residential Uses.** Unless the City Commission approves a horizontal mixed-use alternative per paragraph a. below, residential uses in the Corridor districts shall be part of a project that is vertically integrated with non-residential uses. The residential use may not exceed 65% of the total FAR. When residential uses are included, the other uses shall be commercial, industrial, and/or office. Amenity areas provided for the enjoyment of residents or patrons shall not contribute to the non-residential percentage. A mixture of uses is not required in every structure when multiple buildings are proposed. Mixed-use buildings or commercial uses shall be oriented toward the front property line(s).
 - a. **Horizontal Mixed-Use Alternative.** Horizontal mixing of uses may be authorized when the residential and non-residential uses meet all the following standards:
 1. The proposed development shall have a binding concept plan approved by City Commission through the mandatory Master Concept Plan process described in [Chapter 2, Article II, Section 2.2.10](#) of this ULDC;
 2. The residential uses include at least two distinct housing types. Single-family detached and two-family residential is prohibited;
 3. All residential use areas are within 0.25-miles or 1,320-feet from the non-residential uses;
 4. The residential and nonresidential uses are functionally integrated with:
 - i. Shared public space, parking, and amenity areas;
 - ii. Internal connecting pedestrian, bicycle, multi-use trails, and roadways; and
 - iii. Shared external access points.
