

For Lease

1649 Gordon Highway Unit A

\$0.60 SF/ APPROXIMATELY 10,000 SF

Great commercial space for a business looking for an adaptable and functional area with lots of possibilities. Space has built in reception area/ waiting room and several enclosed offices along with some storage /warehouse type space that is accessible from the back of the property. This would be great for receiving deliveries and keeping the front entrance free of the back end operations of the business so you could give your customers/clients the best experience possible at your establishment. This location has excellent road exposure, as it is on a 4-lane highway and has a place for a sign to be even more visible to the traffic. Fantastic space for any business such as retail, offices, or healthcare because you can make it your own! This is a must see for the price, road exposure, and versatility! Call for more details!
