Our company was born from a dream: to combine European design culture, where aesthetics of lines and rich textures are revered, with the American spirit of speed, precision, and excellence. Thus, in Morgan Hill, California, a family-owned production facility was established — where every piece is crafted with heart, from the first sketch to the final touch. We believe furniture should inspire.

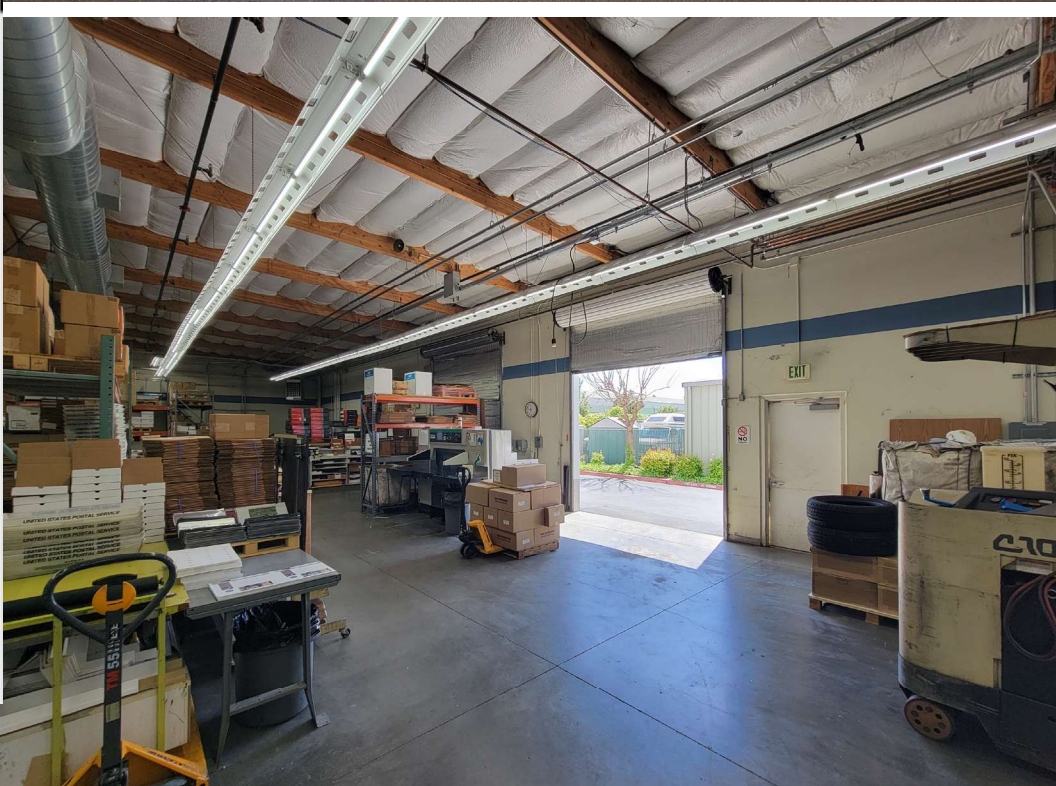

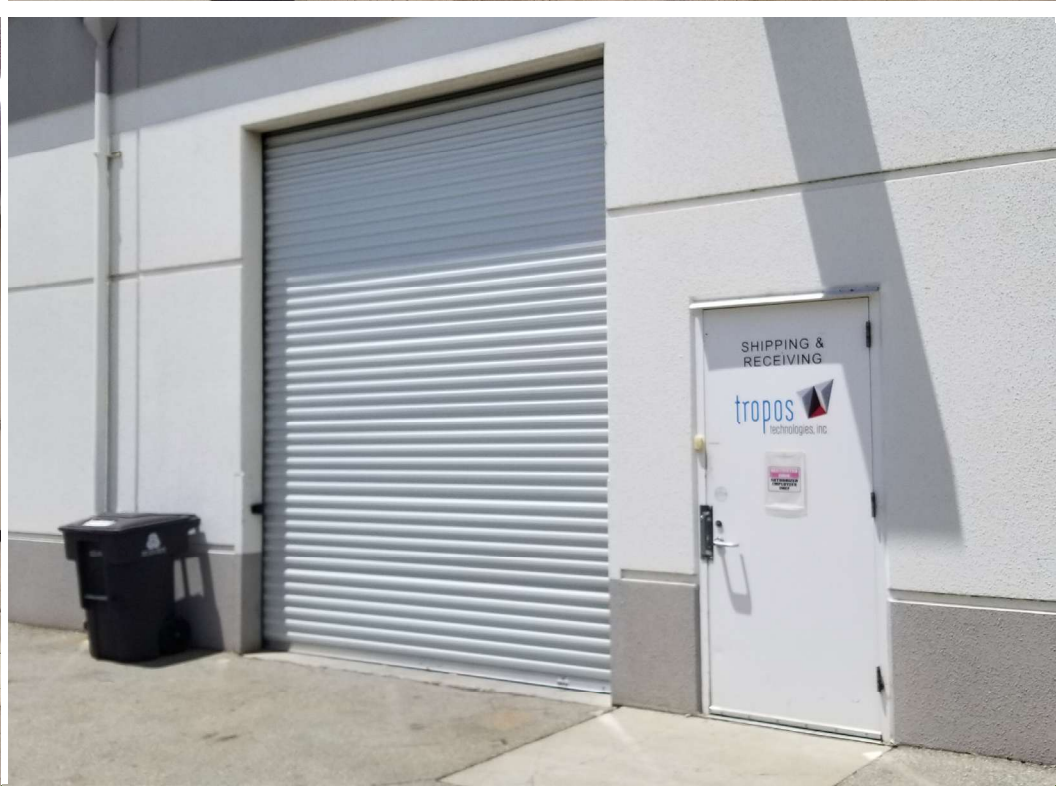

From carefully crafted standardized powders and blends for a variety of wet and dry applications, to a smarter, more reliable, and planet-friendly way of growing mushrooms in our high-tech lab farm, to a streamlined purchase process, everything at Sempera Organics puts you at the forefront.
