EXECUTIVE SUMMARY

4510 EVERETT CT

WHEAT RIDGE, CO 80033

Everett Pines

4510 Everett Court is in the heart of the 44th & Kipling corridor in Wheat Ridge. The property consists of six townhome-style units, four of which have been fully renovated with high quality materials in the kitchens, bathrooms, flooring, interior paint, carpet, and completely renovated bathrooms. Each townhome features a private backyard, a locked storage shed, and off-street, private parking lot behind the property. With repaved walkups to each door set up back from the street, recent exterior paint, and mailboxes, 4510 Everett Ct is a gem in a coveted, quiet pocket of Wheat Ridge.

All units are spacious two-bedroom, one-and-a-half-bath townhomes of approximately 800 square feet, offering a highly desirable layout for renters. The units are individually metered for gas and electricity, allowing tenants to pay their utilities directly, while ownership only pays for water and trash.

The mature landscaping and well-maintained grounds present a comforting home with strong rental appeal to prospective high-quality residents. This investment offers immediate cash flow, while still providing upside through continued renovations on the remaining two units. Overall, 4510 Everett Ct presents a fantastic opportunity to own a well-maintained, high-demand multifamily asset that offers strong in-place cash flow with additional upside through continued unit renovations, and is in a prime Wheat Ridge location.

DENVER COLORADO 2026 ECONOMIC OVERVIEW

Denver's multifamily market is moving toward a late-cycle reset as new deliveries remain elevated but forward supply is clearly decelerating. Vacancy is approximately 11% (Q4 2025), reflecting the concentration of recent deliveries in the high-end segment and persistent use of concessions to maintain occupancy. Even so, demand has been resilient, with net absorption totaled roughly 9,000 units over the past 12 months, helping narrow the imbalance as leasing season improved. Asking rents are still down year-over-year (approximately -3.5%), but the market is increasingly bifurcated: newer luxury product is competing hardest, while well-located workforce and mid-tier communities are stabilizing faster. With roughly 7,000 units under construction and new project starts meaningfully lower versus the prior cycle, the pipeline appears set to ease, positioning the market for firmer fundamentals and improved rent growth as 2026 progresses.
