RE: Service Building for Rustic Cabins

Dear Mr. Geordge:

Plans and specifications for the above referenced project have undergone the department review process. Consider this letter approval of the plans as submitted.

Consideration should be given to the purchase of a 1250 gallon septic tank with baffles in lieu of constructing a septic tank on site that could be subject to leakage problems.

Doris Morgan R.S. Meagher Co. Sanitarian will provide your with a installation permit and inspection of your sewer system.

If you have any questions do not hesitate to contact me.

Sincerely,

Keith D. Bell R.S.
