CHANDLER, A THRIVING HUB FOR LIFE SCIENCES, BIOTECH & ADVANCED MANUFACTURING

Located in Greater Phoenix, Chandler is a thriving, innovation-driven city with the infrastructure, talent, and business-friendly environment needed to support life science, biotech, and high-tech manufacturing growth.

Innovation & Industry Synergy

With a strong foundation in advanced manufacturing, semiconductors, biosciences, and clean tech, Chandler is home to major employers like Intel, NXP, Microchip, and Rogers Corp. This industrial base creates ideal conditions for biotech and life science firms requiring precision engineering, cleanroom environments, and advanced R&D capabilities.

Life Sciences on the Rise

- Chandler’s life sciences sector is expanding, supported by:
- Turnkey lab space (e.g., San Tan Tech Center, Parklane Medical)
- Proximity to ASU, TGen, Mayo Clinic – all within 25 minutes
- STEM talent pipeline from top universities and technical colleges
- Support from AZBio, GPEC, and BioAccel
- Streamlined permitting and flexible zoning make it easy for lab and cleanroom users to scale fast.

High-Tech Manufacturing Strength

A leader in Arizona’s “Silicon Desert,” Chandler offers:

- Class A flex/industrial space for R&D and advanced production
 - Dual-feed power, fiber connectivity, and scalable infrastructure
 - A local supply chain skilled in precision manufacturing and QA
- Perfect for medical device makers and bioscience manufacturers seeking scale and speed-to-market.

Educated Workforce & Talent Access

With 42% of adults holding a bachelor’s degree or higher, Chandler draws STEM talent from:

- ASU (biotech, engineering)
- UA College of Medicine – Phoenix
- Chandler-Gilbert Community College

Ongoing investment from Intel and others strengthens Chandler’s future-focused workforce.

Connectivity & Quality of Life

Centrally located near Loop 101, Loop 202, I-10, and key airports:

- Sky Harbor International – 20 mins
- Mesa Gateway Airport – 15 mins

Chandler also offers award-winning schools, a vibrant downtown, and exceptional livability—helping companies attract and retain top-tier talent.
