Market Overview

Raleigh Submarket

Raleigh, North Carolina — the “City of Oaks” and proud state capital — is one of America’s fastest-growing metros. Located at the heart of the Research Triangle, Raleigh sits within close reach of major interstates and RDU International Airport, the fastest-growing Top 50 airport in the country. RDU served a record 15.6 million passengers in 2025 and offers service to 82 nonstop destinations across the U.S. and internationally, generating \$24.1 billion in annual economic impact for the region.

Raleigh’s retail market is one of the region’s strongest sectors, with vacancy tightening to just 2.34% in Q3 2025 — among the lowest in the Southeast. Construction activity nearly doubled to 625,000 SF as developers race to meet demand.

At the heart of Raleigh’s retail landscape sits **Crabtree Valley Mall**, the largest enclosed mall in the Research Triangle and a premier shopping destination since 1972. The property features over 200 stores — including Apple, Coach, H&M, Macy’s, and Michael Kors — alongside top dining destinations like The Cheesecake Factory, P.F. Chang’s, and Fleming’s Prime Steakhouse. The mall is currently undergoing a significant transformation: new ownership Macerich acquired the property for \$290 million in mid-2025 and immediately launched a \$60 million renovation, with a new Dick’s Sporting Goods House of Sport — set to open in 2026 in the former Sears anchor space, signaling continued investor confidence in Raleigh’s retail fundamentals.

Expansion

Downtown South — Kane Realty’s transformative mixed-use district anchors Raleigh’s next growth chapter, featuring a 27-story office tower (home to Parexel), 1,000+ residential units, and a first-of-its-kind Mass Timber office building with 160,000 SF of space.

Dix Park — The city’s 308-acre urban greenway is catalyzing surrounding development, including The Weld (600+ apartments, two 20-story towers) and Rockway (300+ units) by Kane Realty near its entrance. Since 2015, Downtown Raleigh has seen over \$4.8 billion in completed and in-progress development — with robust demand from biotech, tech, and life sciences tenants driving continued momentum.
