- 2 Bathrooms, 378 SF office
- 15'10" Clear Height
- Can be leased with 9150A, for a total of 5,880 SF

Zoning

CE – Corridor Activity Center

The Corridor Employment (CE) District is intended to encourage the development and redevelopment of employment land near U.S. Route 1. Development in the CE District should provide for new office, flex, and light industrial uses, while reducing the spread of strip commercial development and encouraging consolidation of fragmented parcels. The requirements of this district, in conjunction with the Route 1 Manual and required vehicular and pedestrian improvements, will result in development that improves the appearance of the Route 1 streetscape, enhances traffic safety and better accommodates public transit and pedestrian travel.

[Link to CE Permitted Uses](#)

CLI – Continuing Light Industrial

The Continuing Light Industrial (CLI) Overlay District is established to allow continuing use of existing warehousing and light industrial buildings in the Corridor Employment (CE) District and the Corridor Activity Center District (CAC) that were developed for these uses prior to creation of these districts. By allowing these uses to continue, the CLI District protects and promotes owner investment in the existing buildings and site improvements.
