Background

Vacant for more than a decade, the former Budelpack COSi and Cooper Standard site at Ewenny Road Industrial Estate has been awarded grant funding by Cardiff Capital Region (CCR) to help transform the site.

The vendor is using the funds and has commenced enabling works, preparing the site for re-development, making it suitable as a mixed-use development featuring new homes, retail opportunities, business enterprise units and reserving land for a future transport interchange as part of the wider Metro proposals.

While the development has been in the planning stages for a number of years, the site masterplan has been revised, to ensure it meets local housing, employment, and transportation needs. Outline planning permission was granted on 9th May 2024.

Property

The property available for sale comprises a broadly level, cleared brownfield site, extending to 16.31 acres (6.6 ha) and is outlined in red on the plan below. The property forms part of a larger site area of 19.03 acre (7.7 ha). The remaining part of the site, outlined blue, will be retained by Bridgend Council and reserved for development of the transport interchange and employment uses.

The site was previously occupied by general industrial uses (Budelpac COSi and Cooper Standard) which ceased in 2008 and, subsequently, the site was cleared of the former factory buildings.

The site is accessed via Oakwood Drive to the west and bounded by the Llynfi River to the east.

Location

The site is located in approximately 1 mile south east of Maesteg town centre, which is home to an array of local and some national retailers, coffee shops and eateries. There is also a Tesco, Asda and Aldi superstore within the town.

The site is located 7.5 miles north of J36 of the M4, which provides access to Bridgend (8.8 miles), Swansea (17 miles) and Cardiff (30 miles).

The site benefits from its close proximity to Ewenny Road Railway Station, which is located opposite the property and provides regular and direct train services to Cardiff city centre with a journey time of approximately 50 minutes.

Planning

In 2013 an outline planning application for the wider site was submitted under planning ref: P/13/808/OUT and was granted subject to conditions and the signing of a S106 agreement. This initial proposal was revised in an attempt to improve the viability of the scheme and the Development Control Committee resolved to defer the application for this revised scheme, in May 2016.

Since both 2013 and 2016 there has been an increasing focus on placemaking principles and ensuring these are at the heart of all new development. The LDP strategy promotes the site as a flexible regeneration opportunity to create a new mixed-use neighbourhood that can deliver much needed new homes, commercial and social facilities set within a pleasant environment that can capitalise on its riverside setting.

Under the same application (ref: P/13/808/OUT), the council approved the outline planning permission on 9 May 2024 for a mixed use development comprising residential (201 units), employment/enterprise hub, retail, transport interchange, public open space, access, engineering operations and associated works.

The S106 agreement requires the following:

- 15% on-site provision of affordable housing;

- £8,000 financial contribution towards the costs of extending existing traffic regulation orders which prohibit parking or/loading/unloading on Oakwood Drive or the road linking Oakwood Drive to Bethania Street, in order to ensure that the streets remain free flowing;
- Provision of public open space incorporating a NEAP and informal open space within the site.

The local planning authority have confirmed that as the outline planning application was submitted before 7th January 2019 but not approved, there is no requirement for SAB approval.

A copy of the decision notice and S106 agreement is provided within the Information Pack.

Enabling Works

CCR funding has been made available to undertake a programme of enabling works. The vendor tendered these works and Sirius Group was appointed.

A summary outlining the extent of enabling works to be completed by the seller together with supporting information is provided in the information pack.

The enabling works are targeted to be completed before the end of 2025.
