NOTES

The premier car collisions center is located in the highly desirable Southwest submarket of Las Vegas. This is a rare opportunity to acquire a well-positioned automotive service asset in one of the Valley's fastest-growing areas. Surrounded by dense residential communities, strong household incomes, and high traffic corridors, the property benefits from consistent demand driven by both population growth and daily commuter activity.

The facility is fully equipped to handle a wide range of collision repair services, with efficient workflow design, modern equipment, and ample space to support high-volume operations. With continued expansion in the Southwest Las Vegas market and limited availability of comparable automotive service sites, this collision center is ideally positioned for sustained revenue growth and long-term value appreciation.
