ROBUST INFRASTRUCTURE.

6000 Nathan is equipped with **brand-new HVAC (360 tons), 5,000 Amps of existing power, and three backup generators**, which can be customized to meet tenant-specific requirements for functionality, loading, and operational needs. The facility features a **Vertiv Liebert UPS with a separate power feed and generator support, a Zeks HSF/HSG heatsink compressed air dryer, and an existing lab setup with reverse osmosis and compressed air.** Multiple restrooms throughout the building help minimize SAC/WAC costs for new build-outs.
