OFFERING SUMMARY

THE OPPORTUNITY

Urban West Ventures is pleased to present **2244 Highway 69 South** — a fully fenced 7.4-acre Industrial Outdoor Storage site strategically positioned just outside Greenville city limits within the Extra-Territorial Jurisdiction (ETJ).

With two industrial buildings totaling over 15,000 SF and a separate 1,064 SF office, the site is available for a broad range of industrial, logistics, and outdoor storage users. The absence of zoning or use restrictions in the ETJ creates exceptional operational flexibility — an increasingly rare advantage in today's market. The owner is prepared to clear and grade the site as required to meet tenant specifications.

Situated along the high-traffic Highway 69 S corridor with direct proximity to L3Harris Technologies, Majors Airport, and Interstate 30, this site offers outstanding regional connectivity to the Dallas-Fort Worth metroplex.

KEY HIGHLIGHTS

- ◆ *7.4 acres, fully fenced — available for IOS operations*
- ◆ *No zoning or use restrictions (Greenville ETJ)*
- ◆ *15,000+ SF industrial + 1,064 SF office building*
- ◆ *High-visibility Highway 69 S frontage*
- ◆ *Multiple access points for semi-trucks & heavy equipment*
- ◆ *Build-to-suit / custom tenant improvements available*
- ◆ *Owner will clear & grade site to tenant specifications*

PROPERTY HIGHLIGHTS

SITE & LOCATION

The property sits along Highway 69 S with high-visibility frontage on a primary arterial corridor. Located within the Greenville ETJ, the site operates free from zoning constraints and use restrictions — allowing the widest possible range of industrial, logistics, and outdoor storage operations. Multiple access points accommodate semi-trucks, trailers, and heavy equipment with ease.

BUILDINGS & INFRASTRUCTURE

Two industrial buildings totaling 15,000+ SF plus a separate 1,064 SF office are positioned on an expansive hardstand yard with ample room for vehicle staging, equipment storage, and material laydown. The property is available for industrial, logistics, and outdoor storage users. Owner will clear and grade the site to tenant specifications, prepare buildings for tenant requirements, and additional buildings can be added to accommodate growth.

AREA GROWTH & DEVELOPMENT

Two major infrastructure projects are underway immediately adjacent: a new GEUS Electric Utility substation (part of a \$260M+ capital improvement program) and a SunGrid Solar Farm (10 MW, four community solar facilities approved February 2026, energization target Summer 2026). These projects signal continued investment in the Highway 69 S corridor — and directly enhance power capacity and reliability for the site.
