# Investment Overview

The Renton TOD Townhome Site features a 1.33-acre development site in a prime Renton growth corridor, recently upzoned to **RMF-2**. This designation, combined with the property's location within a **1/2-mile Middle Housing Walkshed**, represents the highest tier of residential development potential in the city. The new zoning effectively doubles the standard density to a base of **40 units per net acre**, while state-mandated middle housing updates allow for streamlined unit counts and a **complete waiver of off-street parking requirements**. These combined factors drastically increase the buildable footprint and flexibility for the site.

The 58,065 SF parcel is uniquely positioned to capitalize on the Pacific Northwest's evolving housing laws. By leveraging the **zero-parking requirement**, a developer can utilize the site's unique geometry to maximize residential square footage that was previously reserved for vehicle circulation. With the ability to employ **Unit Lot Subdivisions (P13)** for fee-simple townhouse sales and the potential for significant density bonuses, this site offers a rare "plug-and-play" opportunity to deliver high-density housing in a submarket with a strong pricing ceiling and direct access to major regional employment hubs.

PRICE: \$1,645,000  
LOT SIZE: 1.33 Acre  
PRICE/ACRE: \$1,236,842  
PRICE/SF: \$28.33  
BASE DENSITY: 40 units/net acre  
BONUS POTENTIAL: 80 units/acre

## OPTIMIZED SITE EFFICIENCY

The elimination of parking requirements allows for creative navigation of the 1.33-acre site's irregular shape, maximizing the **70% lot coverage** allowance and usable building area.

Zoning and “P13” conditions support a variety of high-density products, including **Unit Lot Subdivided townhomes**, cottage clusters, or stacked flats, catering to the region’s diverse housing needs.

# Regional Connectivity & Infrastructure

## THE NEW RENTON TRANSIT CENTER & STRIDE BRT EXPANSION

### THE STRIDE S1 ADVANTAGE

Scheduled to begin service in 2028, the S1 Line will utilize a specialized fleet of battery-electric double-decker buses. Operating in dedicated median lanes along I-405, this service is designed to bypass regional congestion, providing a "one-seat ride" from Renton to Bellevue and Burien.

### STRATEGIC RELOCATION

The new facility, located at the corner of Rainier Ave S and S Grady Way, will feature eight bus bays, covered passenger waiting areas, and a new four-way signalized intersection to streamline regional and local transit operations.

### ENHANCED PEDESTRIAN ACCESS

Public investment includes new sidewalks, signalized crossings, and an expansion of the existing two-way bike lane along Shattuck Avenue, ensuring the subject property is seamlessly integrated into the new transit-oriented core.

### STRIDE S1 EXPANSION

High-frequency electric buses running every 10–15 minutes.

### RAPID REGIONAL ACCESS

Direct "one-seat" rides to Bellevue Downtown and Burien hubs.
