Bishop Beale Duncan
COMMERCIAL REAL ESTATE

A 4.87-acre anchor development parcel of a potential three-parcel, ±15.31-acre assemblage fronting Plymouth Sorrento Road – minutes from the SR-429 interchange in Northwest Orange County's fastest-growing submarket development.

- New to Market
- Land for Sale individually or as an assemblage
- Combined Acreage: 15.31 Acres
- Zoned A-1: multiple uses
- Within minutes from the Kelly Park Exchange
- Major growth area along SR 429 and the new extension
- Price: Call for more details

Property Aerial

A RARE CONVERGENCE OF OPPORTUNITY. DON'T MISS OUT.

Why builders and land investors are targeting this corridor

Plant your project at the center of Apopka's fastest-growing mile. With **4.87 acres of frontage** minutes from the SR-429 interchange, surrounded by \$480K+ homes and 12% annual population growth, this parcel offers the scale and location builders are chasing — as a standalone anchor site or as the northern piece of a ±15.31-acre assemblage.

Timing is the edge: the Kelly Park Rd four-laning completes in 2027 and Wyld Oaks is moving vertical now. Land basis established today rides the corridor's infrastructure and rooftop wave — the same wave Lennar, M/I Homes and a \$1.2B master developer have already paid to catch.

WHY THIS INVESTMENT WINS...

1 IRREPLACEABLE CORRIDOR POSITION

- **Anchor-scale acreage** — substantial contiguous land suited to a single-family pod, townhome cluster or build-to-rent community
- **< 1 mile** to the SR-429 / Kelly Park Rd interchange → I-4, downtown Orlando & the theme-park corridor
- Inside the **Kelly Park Interchange District** — Northwest Orange County's designated growth node
- **Kelly Park Rd is being four-laned now** — a \$26-27M widening from SR-429 to past Plymouth Sorrento Rd, targeted for 2027
- Plymouth Sorrento Rd (CR 437) frontage — **7,283-8,198 vehicles/day**; Kelly Park Rd 9,470 vpd

COMPETITIVE MOAT: Road-fronted development land of this scale rarely trades in this corridor — and the two adjoining parcels can be combined for full-block control.

2 A \$1.2B GROWTH ENGINE NEXT DOOR

- **Wyld Oaks** — a \$1.2 billion, 255-acre mixed-use district with **3,000-4,000 residences**, 280K SF retail, 70K SF restaurants and two hotels — is under way ~1 mile away at the interchange
- **~13,000 new homes** are planned across the Kelly Park corridor
- **Lennar** has filed 86 lots on Plymouth Sorrento Rd itself; **M/I Homes** has 263 lots under way nearby; 242 apartments + 180 more units approved on the corridor
- The Groves at Kelly Park (multifamily) already under construction

MARKET VALIDATION: National builders and institutional capital have already underwritten this corridor — the growth story is funded and moving dirt.

3 AFFLUENT, EXPLODING DEMOGRAPHICS

- 1-mile population grew **12.4 % annually** 2020-2025 (1,834 → 2,971), projected to reach **3,428 by 2030**
 - 3-mile ring holds **25,316 people**, growing to 28,179
 - 1-mile median household income **\$126,812** (avg \$154,104); **290 households earn \$200K+** within a mile
 - Median home value **\$486,882**, median build year 2010 — new rooftops, new wealth
- SPENDING POWER:** High-income professionals and young families are moving in next door — and paying \$480K+ for the privilege.

4 ENTITLEMENT UPSIDE & FLEXIBILITY

- **A-1 (Agricultural) today** — the value driver is rezoning / entitlement toward residential or mixed-use, consistent with proposed corridor uses
- Corridor vision spans **single-family, multifamily, retail, storefront retail/residential and commercial**
- Apopka's **Kelly Park Interchange Form-Based Code** frames the district's mixed-use blueprint, including density bonuses
- Level, wooded/cleared land; **water & electric available** (no sewer — septic or extension)
- **Not in a Special Flood Hazard Area** (FEMA Zone B/X)

OPTIONALITY: Raw, unencumbered land in the path of growth — entitle to match your thesis, capital and timeline.

4641 is also
offered as
a part of
a 3-Parcel
Opportunity

THE OFFERING — THREE PARCELS, ONE OPPORTUNITY

Contiguous, master-plannable frontage — scarce at this scale in the Kelly Park corridor

PARCEL	ADDRESS	PARCEL ID	SIZE	CHARACTER
1	4641 Plymouth Sorrento Rd	18-20-28-0000-00-095	4.87 AC / 211,921 SF	Anchor development parcel
2	4617 Plymouth Sorrento Rd	18-20-28-0000-00-121	6.98 AC / 303,929 SF	Largest & most flexible — the centerpiece
3	4605 Plymouth Sorrento Rd	18-20-28-0000-00-093	3.46 AC / 150,747 SF	Southern entry, adjoins new neighborhoods
TOTAL — three contiguous parcels, continuous frontage			15.31 AC / 666,597 SF	One master-plannable site

WHY INVEST IN THE WHOLE PORTFOLIO?

Unified control limits holdout risk · enables efficient master planning and phasing · supports higher-density entitlements · captures the full corridor frontage in one transaction.

ONE ZONING, ONE PATH

All three parcels share **A-1 Zoning** — a clean, unified rezoning / entitlement path toward the corridor's proposed residential and mixed-use pattern, framed by Apopka's Kelly Park Interchange Form-Based Code.

BUY THE BLOCK — OR JOIN IT

Offered as a single #15.31-acre master-development opportunity **or individually by three separate owners**. Acquire the assemblage and control the corridor — or acquire a parcel and join it.
