WHY INVESTMENT IN 10903 E. TRENT?

Attractive Rental Rate: The property's rental rate is competitive with comparable properties in the area and, in certain cases, below market averages, enhancing its appeal to tenants and supporting long-term occupancy.

Established Tenancy with Future Leasing Potential: The property is currently occupied by five tenants, generating steady income. With competitive market rents and a desirable location, the building is well-positioned to maintain strong occupancy and attract future tenants if space becomes available.

Rare Market Opportunity: Comparable investment properties are rarely available in the current market, and recent transactions of this nature are limited. This scarcity creates a unique opportunity for investors seeking a distinctive asset.

Unique Market Position: While a neighboring building features the same construction design, its units are being sold as condominiums rather than leased. This positions 10903 E. Trent Ave. as one of the only opportunities for tenants seeking comparable flex space for lease in the immediate area.

*Spokane Valley Flex Space under 10,000 SFT has a 2.3% vacancy
